MEDICAL FURNITURE & EQUIPMENT 2022

Founded in 1953, Bristol Maid has been manufacturing and supplying medical furniture & equipment for over 65 years. From design and manufacture to supply and installation, Bristol Maid has a reputation for providing high product quality, excellent customer service and value for money. We take pride in working in close partnership with our customers to deliver effective solutions based on innovative design and technology that will meet the demands of today while anticipating the solutions for tomorrow.

Our highly-trained staff are experienced in every aspect of customer support, from simple product selection to bespoke technical solutions, from on-site audits to complex project management arrangements, according to our customers' needs. Bristol Maid's commitment to quality is based on years of experience working with healthcare professionals in an exacting and regulated environment, and is supported by an ISO 9001:2015 quality management system that is registered with a UKAS accredited certification body.

If you require further assistance, please do not hesitate to contact our Customer Service team who are here to help; or alternatively can arrange for your Regional Sales Representative to visit and help find a solution that best suits your requirements.

Family business

Hospital Metalcraft Ltd is a family company. We own our factory, production lines and delivery lorries. We continually invest into our staff and the development of new product ranges.

Healthcare focused

With an extensive portfolio that covers almost every discipline, we have solutions to cater for the demands of the healthcare environment.

Manufactured in the UK

Hospital Metalcraft is proud to be a British manufacturing success story. Strict quality criteria are applied to both the Bristol Maid product range designed and produced within our own manufacturing facility, and complementary equipment from carefully selected partners.

Delivered using our own lorries

Wherever possible we use our own fleet of lorries to ensure that your equipment arrives safe and secure.

The best quality

With over 65 years' experience, we are focussed on the design and manufacture of high-quality products which will create value for our customers. With a worldwide customer base, the Bristol Maid brand is recognised by many thousands of satisfied customers.

Approved supplier

We are an accredited NHS & public sector accredited supplier. This allows you to buy with confidence knowing your requirements for compliant and competitive tendering has already been met.

Support you can rely on

Our external sales representatives, sales support engineers and our customer service team are here to help you at every stage, from advice with product selection, managing the delivery of your order through to full service and repair support.

HOW TO ORDER

How to Order

- Orders are required in writing. Should you wish to order over the phone, payment is required in full (debit or credit card). Alternatively, we can issue a pro-forma invoice, payment is required in full prior to manufacture
- Orders should be submitted as an ‘official purchase order’ on company headed paper with all information clearly displayed
- Your order should contain the following information
    - Item No.
    - Description
    - Quantity
    - Delivery address
    - Invoice address
    - Full contact details, including name, email address, phone & fax numbers
- Where a quotation has been issued, please reference this to ensure any agreed discounts are applied
- Item codes & descriptions in this catalogue supersede all previous editions
- A full price list can be requested from our website
- Payments can be made by cheque, bank transfer, credit or debit card
- If you are a new customer, the first three orders will be processed on a pro-forma basis, paid in full prior to manufacture & delivery, after which a credit account may be applied for
- For our terms and conditions refer to www.bristolmaid.com
- For further information and assistance, please contact our customer services team on +44 (0)1258 484455

Payment Options

BACS

- Payments to: HSBC Bank PLC
- Sort Code: 40-12-18
- Account Number: 11044052

Credit or Debit Card

- Major credit cards accepted (with exception of American Express)

Your Partner for Healthcare Equipment & Furniture

Through many years' experience we can support you with the facilitation and project management of tenders and contracts.

- Specifying Requirements - We will analyse your needs to identify products that meet your requirements
- Product Demonstrations - We will allow you the opportunity to gain 'hands on' experience of our products to ensure that it is suitable for your needs
- Project Planning - We will work with you and your team to identify any constraints and agree delivery phasing to ensure that we are able to fully meet your expectations
- Scheduled Deliveries - We will deliver your order using our own transport to an agreed delivery schedule and, if agreed place the product and remove any packaging
- Installation & Commissioning - The majority of the products that we supply requires no installation or commissioning, however we can provide this where it is required
- Training - We can supply training to ensure that the products are used and maintained in the correct manner
- Full Service & Repair Support - Bristol Maid branded products are designed and manufactured to meet the demands of everyday use, which under normal conditions should provide many years of trouble-free use. However, there are times where attention is required due to wear and tear or misuse
- Maintenance Contracts - Peace of mind service contracts to ensure that your product is periodically checked, and where necessary adjustments and repairs are made
- Site Audit & Equipment Recommendations - We will support you with site and equipment audits

Custom Design & Manufacture

Whether it is a trolley that is slightly lower, a work surface that is slightly larger, a cabinet that must fit into a specific space or a unique colour scheme on a bedside cabinet, we recognise
that our standard product range may not always to be able to provide a product that meets your specific requirements.

If you require a unique product, please contact us so we can work together to develop a solution that will exactly match your needs. Our design capability allows us to provide everything from minor product specification changes through to a full design & development service.

- BS EN 12720:2009 - Furniture assessment of surface resistance to cold liquids
- BS EN 12721:2009 - Furniture assessment of surface resistance to wet heat
- BS EN 12722:2009 - Furniture assessment of surface resistance to dry heat
- BS 5852:2006 - Methods of the test for assessment of the ignitability
- BS 4875-7:2006 - Domestic & contract storage furniture
- Developed as part of Design Bugs Out & evaluated by the Department of Health
- Manufactured from recyclable polyethylene
- Open backless design ensures that all areas are accessible, whilst surfaces allow for easy & effective cleaning
- Distinct upper, middle & lower zones
  - Upper - Nurse zone with integral rim to contain any spillages. Ideally positioned for staff to use while standing
  - Middle - Patient zone provides storage area for patient use
  - Lower - Patient zone provides shelf for washbowl, footwear etc.
- Drawers can be inserted from either side, allowing the cabinet to be positioned either side of the bed
- Upper & middle drawers can be fitted with an L15 125KHz RFID lock, providing secure storage for patient medicines / property*
- 100mm polymer twin-wheel braking castors

*cabinets with locks are supplied with one patient card - a programming card will be required per ward / directorate as per hospital policy

Electronic Push Button & RFID Locks Solutions

Through either electronic push button or contactless RFID, we can offer a secure locking solution to suit your specific requirements.

RFID Locks

- Available as 125KHz or 13.56Mhz frequencies
- Easy programming using a dedicated card
- Three / four user levels offer differing levels of authority - Administration / Master / Sub-Master / User
- Available with clamshell cards or fobs
- Compatible with Abloy CLIQ - RFID chip inserted into the key

Features

Carerails

- Fitted to both sides of the trolley, compatible with a wide range of accessories

Frame

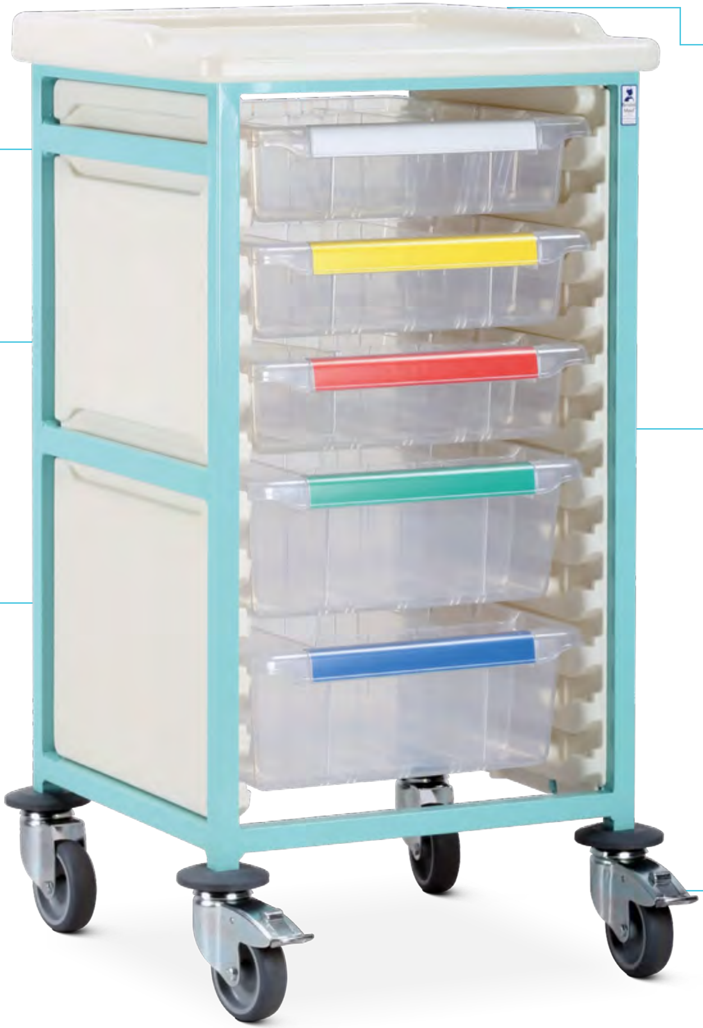
- Fully welded eliminating gaps
- 304 grade stainless steel or mild steel that is powder coated in a durable epoxy polyester paint

Side Panels

- One-piece moulding
- Smooth surfaces & rounded edges assist cleaning (compatible with steam cleaning)
- Runners with positive stops prevent trays from being accidentally withdrawn (symmetrical design allows tray insertion from either side)

Easy Clean

- One-piece mouldings
- Smooth surfaces & rounded edges assist cleaning (compatible with steam cleaning)
- Quick & easy tool-less disassembly assists thorough or deep cleaning programmes



CTM1/10/3S2D

Top

- One-piece moulding
- Smooth surfaces & rounded edges assist cleaning (compatible with steam cleaning)
- Raised edges on three sides provides defined grab points to act as push handles, whilst an integral rim at the front contains spillages
- Maximum load 30kg

Trays & Dividers

- Translucent & impact-resistant (100 / 150mm depths)
- Smooth surfaces & rounded edges assist cleaning (compatible with steam cleaning & able to withstand high temperature machine washing)
- Trays feature an integral handle with plastic clip on label cover, (suitable for use with our perforated coloured label strips)
- Trays can be subdivided in both length & width using simple slot in dividers
- Maximum load 5kg

Castors & Ring Buffers

- 100mm pressed steel or polymer castors (model dependant)
- Two braking castors fitted as standard
- Ring buffers offer protection to both the trolley & fabric of the building
- Smooth surfaces assist cleaning

Accessories

The Caretray Trolley has been developed specifically to meet the needs of Healthcare Professionals across a wide variety of disciplines including Minor Treatment, A&E, Theatre, Phlebotomy, ITU & Outpatients. Through a wide range of accessories, you can configure your trolley to suit your specific needs.

Locking & Security - Page 60

- Solid grade laminate / clear acrylic doors
- Range of locking options
- Security clamp & seals to safeguard contents

Overbridge & Tilt Bins - Page 66

- Provides high level visible storage & assists organisation
- Tilt-bins available with 4, 5 or 6 clear compartments
- Compartments tilt to 45 degrees, to assist access of contents

Defibrillator Platform - Page 67

- Compatible with all popular defibrillators
- Adjustable, allowing compatibility with all popular models
- Platform rotates 360 degrees, whilst the arm swings 90 degrees from the worksurface

Carerail Mounted - Page 68

- An extensive range of accessories can be attached/suspended from the Carerails
- Allows the trolley to be configured to meet specific user requirements
- Accessories range from sharps & glove box holders, catheter racks & waste bins, through to work flaps & suction pump shelves

Laptop Holders - Page 74

- Suitable for use with Electronic Prescribing & Medicines Administration (EPMA) & Electronic Patient Records (EPR)
- Offers height, rotation & angle adjustment
- Laptop can be secured using a security clamp

Castors & Ring Buffers - Page 76

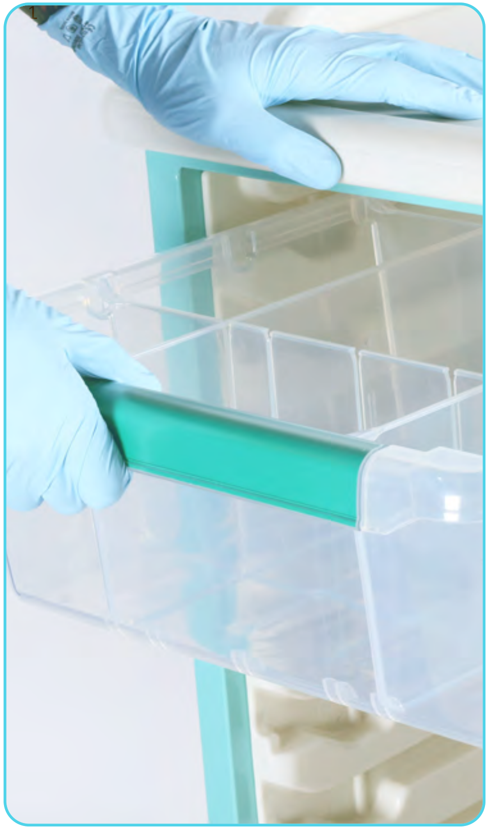
- Range of polymer castors
- Available in various braking & non-braking configurations
- Ring buffers offer protection to both the trolley & fabric of the building

Trays, Shelves, Dividers & Labels - Page 77

- Additional dividers assist segregation
- Coloured labels ensure that trays can be easily identified
- Flat shelves provide an alternative to trays

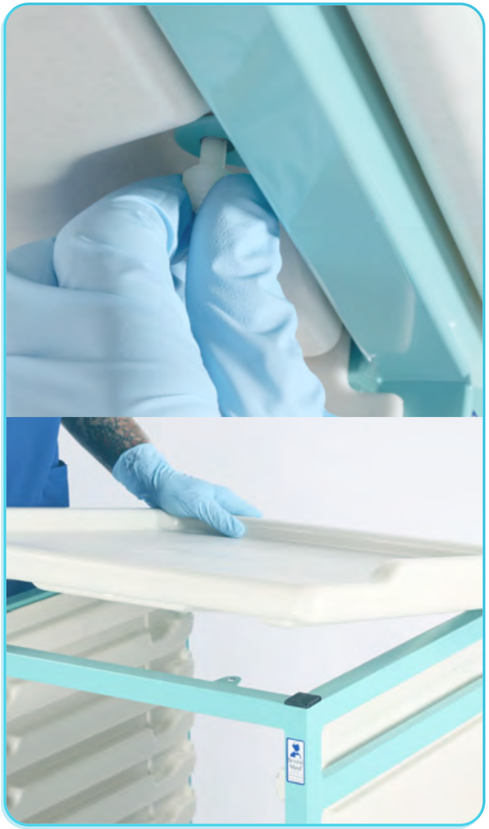
Disassembly & Cleaning

The design of the trolley allows for quick & easy tool-less disassembly providing access for all areas when conducting thorough or deep cleaning programmes. The simple guide below illustrates the disassembly & re-assembly process…



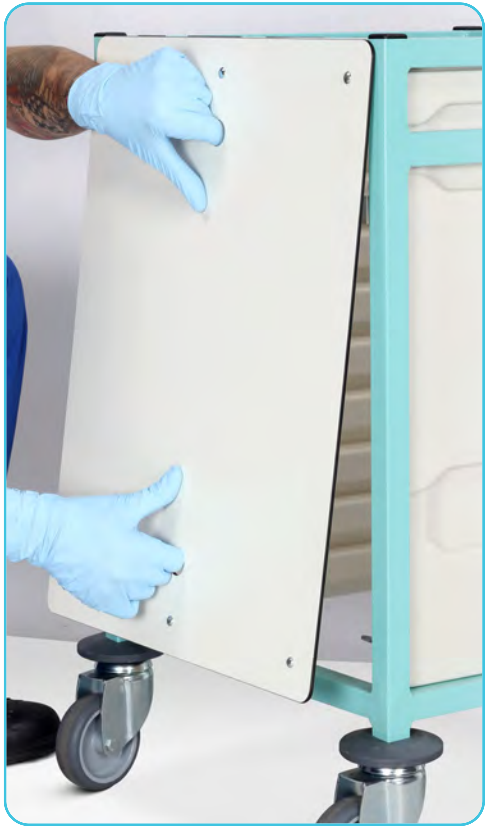
Remove Trays

Remove the trays from the unit



Remove Top

The top is held in place with two thumb screws, located on the underside of the top. Once removed, the top can be removed with a firm tug

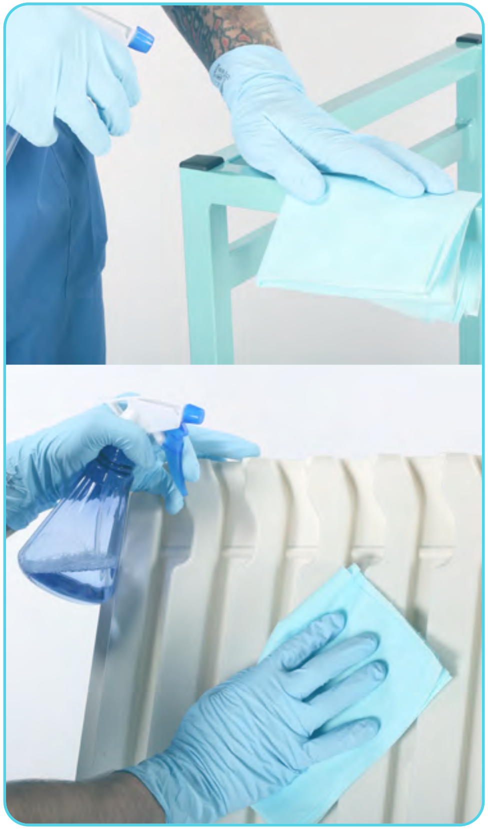


Remove Back Panel (if fitted)

Once the top has been removed, the back panel can be lifted clear of the cross members on the rear of the frame

Remove Side Panels

The side panels are removed by lifting off the positioning inserts. Double height trolleys require thumb screws at the top of the lower panel to be removed.



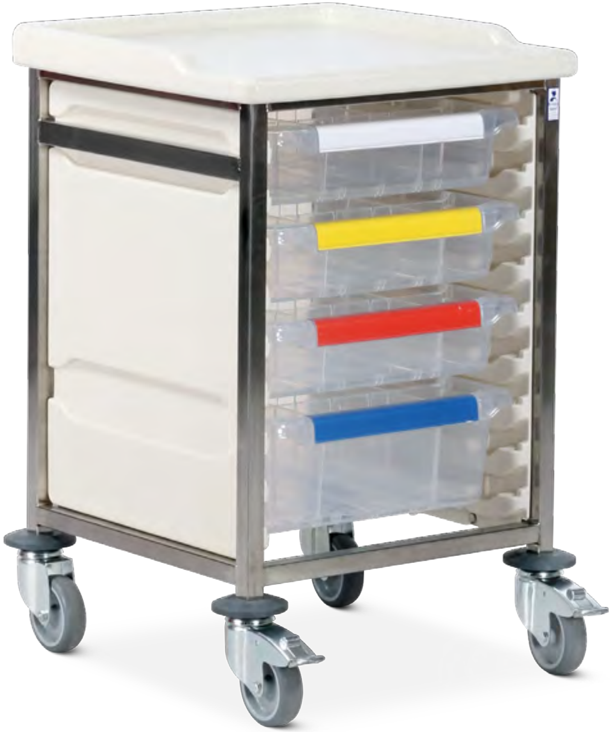
Clean

The frame, side panels & top can now be cleaned

Reassembly

The trolley is re-assembled by repeating the steps in reverse

Caretray Trolleys - Stainless Steel, Low Level, Single & Double Column



CTS1/08/3S1D

CTS1/08/3S1D - shown with optional CT/WF, CT/ALC & GMBH/15

Easy disassembly & cleaning - page 38

Item	Description	Weight
CTS1/08/1S2D	1 x 100mm, 2 x 150mm Trays	21.2kg
CTS1/08/3D	3 x 150mm Trays	21.5kg
CTS1/08/3S1D	3 x 100mm, 1 x 150mm Trays	22.3kg
CTS1/08/4S	4 x 100mm Trays	21.9kg

Features

- Low level, single & double column easy clean procedure trolleys
- Quick & easy disassembly, assists thorough & deep cleaning
- Seamlessly welded, one-piece 304 grade stainless steel frame (requires no on-site assembly)
- Recyclable polypropylene one-piece top & side panels, smooth surfaces & radiused edges assists cleaning (compatible with steam cleaning)
  - Top Panel - Raised edges on three sides provide defined grab points to act as push handles, whilst an integral rim at the front contains spillages (max load 30kg)
  - Side Panels - Incorporate runners with positive stops preventing trays from being accidentally withdrawn (symmetrical design allows tray insertion from either side)
- Carerail fitted to either side support a wide range of accessories
- Translucent, impact-resistant trays & dividers, smooth surfaces & radiused edges assists cleaning (compatible with steam cleaning / high temperature machine washing)
- Trays feature an integral handle with a plastic clip-on label cover (coloured labels supplied - white, blue, green, yellow & red)
- 100 / 150mm deep trays, can be subdivided in both length & width using removable dividers (max load 5kg)
- 2 x long & 2 x short dividers supplied with each tray
- Polyurethane ring buffers offer protection to both the trolley & fabric of the building, smooth surfaces assist cleaning
- 100mm pressed steel castors, 2 off braking

Dimensions (w x d x h)

- Overall Dimensions
  - Single Column - 550 x 550 x 807mm
  - Double Column - 1005 x 550 x 807mm
- Plastic Top
  - Single Column - 455 x 455 (internal) at height 782mm
  - Double Column - 915 x 455 (internal) at height 782mm
- Trays
  - Shallow Tray - 355 x 405 x 100mm (internal)
  - Deep Tray - 355 x 405 x 150mm (internal)

High Level, Single Column	CTD1/14SS	CTDC1/14SS	5.2kg
High Level, Double Column	CTD2/14SS		10.2kg

Security Clamp

Features

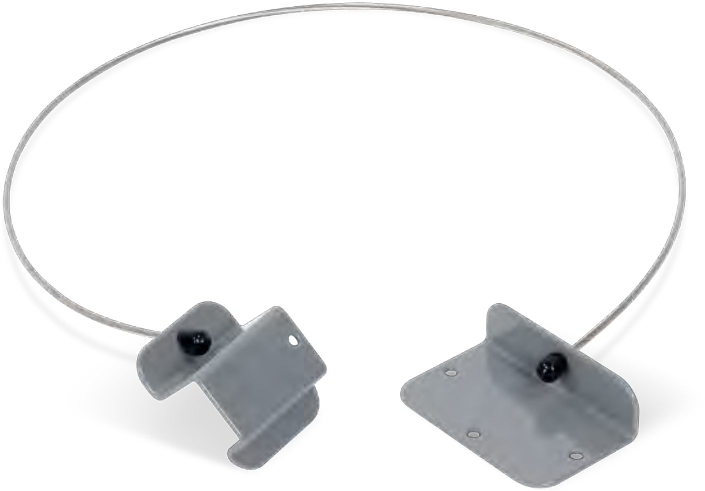
- Allows the trolley to be secured to the ‘fabric of the building’
- Requires no additional keys, utilises the trolleys own locking system
- One end is secured to the wall, the ‘hook shaped’ end is trapped by the door of the trolley when closed & locked
- Recommended wall fitting height approx. 1000mm



Important Note - Security Clamps

It is a requirement that when the trolley is not in use it should be secured to the ‘fabric of the building’. Not only does this prevent casual theft, i.e. trolleys being pushed to an isolated area & broken into, but also encourages good nursing practice, giving the trolley a “permanent home”.

‘Safe & Secure Handling of Medicines - Royal Pharmaceutical Society, GB-March 2005”

Item	Description	Cable Length	Weight
MT/1/6F	Security Clamp	950mm	0.75kg

Security Seals

Features

Caretray Trolley - Dispensing

Features

- Trolleys suitable for the storage & dispensing of drugs & medicines
- Suitable for use with Electronic Prescribing & Medicines Administration (EPMA) & Electronic Patient Records (EPR)
- Quick & easy disassembly, assists thorough & deep cleaning
- Fully welded mild steel frame, powder coated in a durable epoxy paint (requires no on-site assembly)
- Recyclable polypropylene one-piece top & side panels, smooth surfaces & radiused edges assists cleaning (compatible with steam cleaning)
    - Top Panel - Raised edges on three sides provide defined grab points to act as push handles, whilst an integral rim at the front contains spillages (max load 30kg)
    - Side Panels - Incorporate runners with positive stops preventing trays from being accidentally withdrawn
- Carerails fitted to either side support a wide range of accessories
- Solid grade laminate door & back panel providing security for the contents of the trays
- Two locking options…
    - High Security Bolt Lock - Supplied with two keys
    - Electronic Push Button Lock - Programable four-digit code
- Trolley pre-configured with the following accessories…
    - Waste Bin & Bracket, 8 Litre
- Translucent, impact-resistant trays & dividers, smooth surfaces & radiused edges assists cleaning (compatible with steam cleaning / high temperature machine washing)
- Trays feature an integral handle with a plastic clip-on label cover (coloured labels supplied - white, blue, green, yellow & red)
- 100 / 150mm deep trays, can be subdivided in both length & width using removable dividers (max load 5kg)
- 2 x long & 2 x short dividers supplied with each tray
- Polyurethane ring buffers offer protection to both the trolley & fabric of the building, smooth surfaces assist cleaning
- 100mm polymer castors, 2 off braking
- When not in use, trolleys storing medicines should be secured to the wall using a Security Clamp (see locking & security accessories - see page 142)

Laptop supported in a cradle fitted with a steel mounting bracket that can be fixed using either nylock or wing nuts

Item	Description	Weight
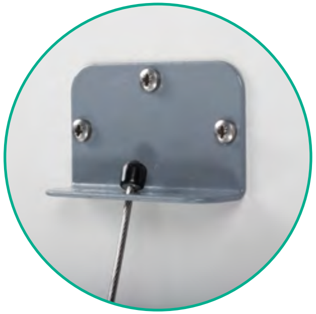
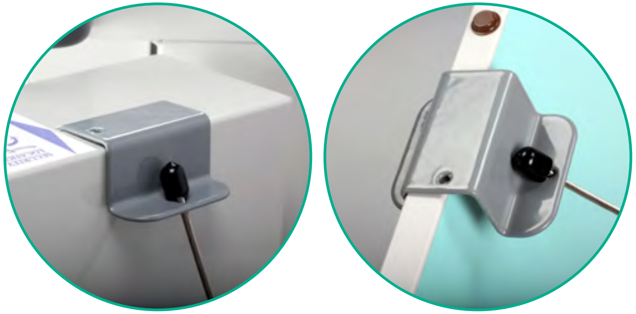
PT/LHNR/S	Non-Removable, Swing Arm	5.0kg

Fitting Your Security Clamp



Securely fasten one end
of the clamp to the wall



The ‘hook shaped’ end is trapped by the door when closed & locked

Security Clamp

Features

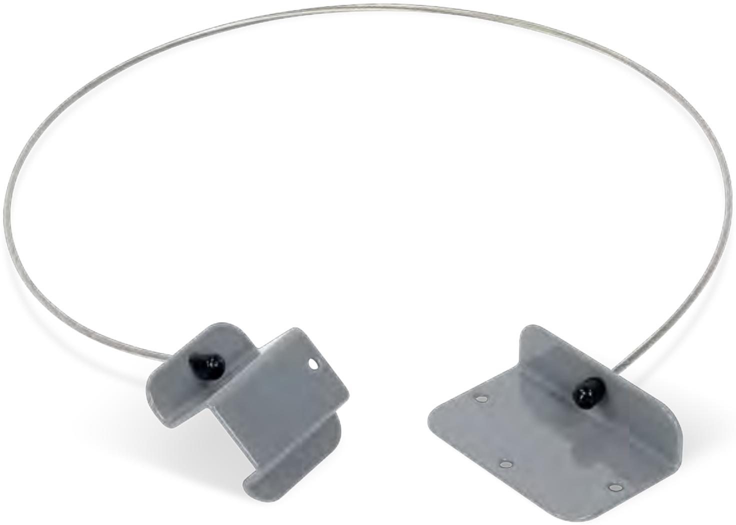
- Allows the trolley to be secured to the ‘fabric of the building’
- Requires no additional keys, utilises the trolleys own locking system
- One end is secured to the wall, the ‘hook shaped’ end is trapped by the door/lid of the trolley when closed & locked
- Recommended wall fitting height approx 1000mm

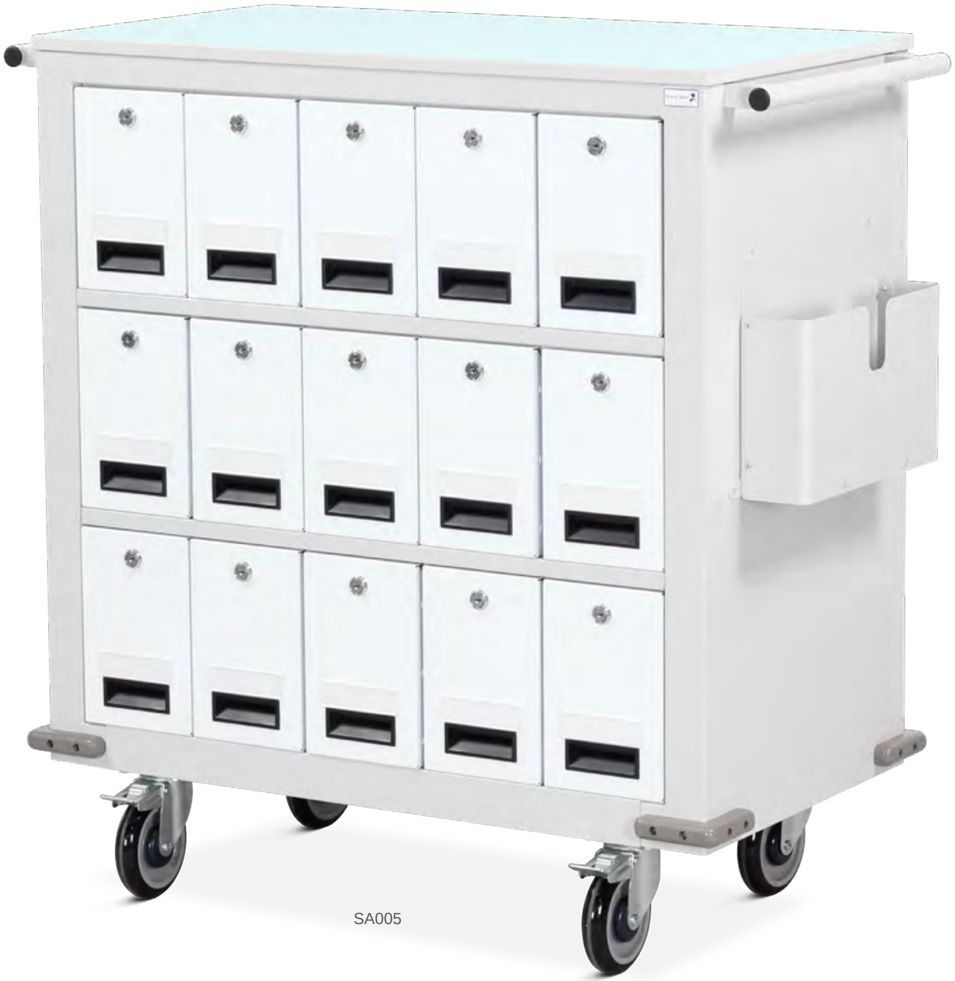


Important Note - Security Clamps
It is a requirement that when the trolley is not in use it should be secured to the ‘fabric of the building’. Not only does this prevent casual theft, i.e. trolleys being pushed to an isolated area & broken into, but also encourages good nursing practice, giving the trolley a “permanent home”.

“Safe & Secure Handling of Medicines - Royal Pharmaceutical Society, GB-March 2005”

Item	Description	Cable Length	Weight
MT/1/6F	Security Clamp	950mm	0.75kg

Distribution Trolleys - Lockable Drawers



SA005

Features

- Trolleys suitable for the distribution of drugs & medicines from pharmacy to the ward & also with self-administration / patient own drug schemes
- Provides secure drug delivery using drawers which when locked are securely fastened to the trolley
- Drawers are fitted with a CAM lock (supplied with two keys)
- Max load per drawer 3kg
- Supplied as standard with locks to differ, allowing each ward to have its own key & be responsible for removing the drawer from the trolley (remaining key should be kept at the pharmacy)
- Master keys available (additional cost)
- Upper work surface
- Push handles at either end
- Document pocket fitted to end of trolley
- Low level corner bumpers offer protection to both the trolley & fabric of the building
- 125mm pressed steel castors, 2 off braking

Dimensions (w x d x h)

- SA005 - 1026 x 523 x 1002mm
- SA025 - 1180 x 523 x 1002mm
- Drawer - 145 x 423 x 230mm (Internal)

- Compatible with CLIQ®, integrating electronics into high security mechanical disc cylinders & keys, combining electronic security & remote management in real time
- Optional Digital Push Button Lock (does not conform to BS 2881: 1989)
- 12v DC LED lighting/warning system (model dependent) with volt-free contact to allow connection to light/nurse call systems. Requires 100v - 240v ~, 50Hz -60Hz, 0.3A Mains supply. Supplied fitted with a UK 3 pin plug. CE marked & conforms to the low voltage directives 73/23/EEC & 89/336/EC
- Lighting transformer housing adds 105mm to the overall height
- 0.9mm (20 gauge) mild steel welded construction
- Mounting holes provided in back (fixings not included)
- Modular design allows for easy interchange with HTM 63 storage systems

Standard Colours

- Paint - White

Controlled Drug Cabinets - Single Point Locking

CD015

CD125

CD010

Features

- Exceeds the statutory requirement for the storage of controlled drugs “The Misuse of Drugs (Safe Custody) Regulations 1973” (with the exception of CD040, CD045, CD140 & CD145)
- BS 3621 anti-pick & drill, key retaining six pin cylinder lock (supplied with 2 keys & identification card)
- Single-point locking
- Key profile unique to Hospital Metalcraft Ltd, offering 250,000 differs per profile
- Compatible with CLIQ®, integrating electronics into high security mechanical disc cylinders & keys, combining electronic security & remote management in real time
- Can be supplied with a micro-switch to allow connection to remote lighting/nurse call system by others (CD905), or supplied with a 12v DC LED lighting/warning system with volt-free contact to allow connection to light/nurse call systems. Requires 100v - 240v ~, 50Hz -60Hz, 0.3A Mains supply. Supplied fitted with a UK 3 pin plug. CE marked & conforms to the low voltage directives 73/23/EEC & 89/336/EC
- Lighting transformer casing adds 105mm to the overall height
- 1.5mm (16 gauge) mild steel, seamless welded construction
- Mounting holes provided in back (fixings not included)
- Adjustable & removable shelves
- Security of models CD005, CD010 & CD015 can be enhanced by concealing inside one of our ‘Drug & Medicine Cabinets’
- Modular design allows for easy interchange with HTM 63 storage systems
- Supplied right hand hinging as standard, left hand available on request

Standard Colours

- Paint - White

Options / Accessories

- CD905 - Micro-switch to connect to remote light box / alarm
- CD910 / CD911 / CD913 - 12v DC LED Lighting/Warning System (for compatibility see tables below)

Auditable Access Control for Medicines Management

What Is CLIQ®?

CLIQ® is the very latest in user-friendly, web-based security management. Part of the Protec² CLIQ® from Abloy range, CLIQ® is designed for remote sites, enabling the commissioning, programming and full administration of security management centrally via web-based software.

How Does It Work?

CLIQ® integrates electronics into mechanical cylinders and keys, providing a security solution that can be managed remotely. In short, this works like an electronic handshake: when the key is inserted it engages with the cylinder, sending a random number back to the key. The key replies with an encrypted response which is decrypted by the cylinder and if valid the cylinder then allows access. It is important to remember that the mechanical combination must match as well as the digital combination. CLIQ® allows a single key to be used with multiple cabinets or trolleys.be used with multiple cabinets or trolleys.

System Features

- Secure - Provides dual security through the patented Protec² CLIQ® from Abloy mechanical disc cylinders and keys along with DES encryption, a recognised electronic standard
- Easily Programmable - Keys can be added quickly and programmed to specific time and date schedules
- Fully Auditable- Audit trails can be accessed from both the cylinder and key
- Reduces Keys - One key can be programmed to open multiple cabinets or trolleys
- The CLIQ® environment works in an Amazon cloud hosted server
- maintained and supported by Abloy allowing remote user access via a secure
- connection from anywhere in the world
- Cost Effective - Low installation & maintenance costs along with a long lifecycle (requires no wires or system updates, power for the cylinder is provided by the key)
- Easily Retrofitable - CLIQ® can be used with a variety of locking solutions including euro lock profile cases, padlocks, camlocks & furniture locks

System Benefits

- Save valuable nursing time which can be used to deliver patient care
- Reduces delay in administering medication
- Improves drug & medicine security
- No more unlocked drug & medicine cabinets
- Eliminates the need to replace locks as a result of lost keys
- One key can be programmed to open multiple cabinets or trolleys
- The key is made personal to that member of staff, resulting in increased ownership and a reduction in the number of keys lost
- Easy to apply remote management, saves money and has the ability to cover several hospitals
- Time and date based access rights, with a full audit trail allow for full visibility of when visits were made
- New keys can be added to the system quickly and easily, removal of lost ones is hassle-free
- Reduction in time spent looking for the person holding the key

Process Flow

Start of Shift

Key Validation & Authorisation

Recurring validation forces users to place their key into the Wall PD. User authorisations are uploaded to the key

During The Shift

Operation

The key will only open cabinets where access permissions have been granted. Each time the key is used in a cabinet fitted with an PROTEC² cylinder an audit trail is created on both the key and cylinder

End of Shift

Automated Data Transfer

Key is placed into the Wall PD. Previous key transactions are automatically downloaded from the key and stored in the audit trail archive

System Components

CLIQ® Key

- Provides dual security through the patented PROTEC^2 mechanical disc cylinders and keys along with DES encryption, a recognised electronic standard
- Thin, light but incredibly strong key

PROTEC^2 Lock Barrel

- A bump proof mechanism
- Exceptionally smooth key entry and operation
- Can be master keyed and keyed alike with cylinders, cam and furniture locks as well as padlocks

Wall Programming Device

- Updates keys remotely (linking the server and users keys)
- Offers high level data encryption
- Allows the use of recurring validation, forcing users to validate their keys at the start of their shift whilst automatically downloading audit trails which are relayed to the server

Traka21

- Sophisticated stand-alone key management system to control the issuing of keys
- Keys are accessed using PIN number technology
- Holds up to 21 keys or keysets

Questions & Answers

Answers to common questions about CLIQ®

Q How secure is it?

A CLIQ® uses a DES encryption (Data Encryption Standard) so it is just as safe as online banking

Q Can I use this with an existing Abloy master key system?

A Yes; CLIQ® can be integrated with an existing PROTEC^2 master key system

Q What is the benefit?

A CLIQ® will give you some of the benefits of access control, such as adding, deleting and amending access rights, take audit trails from keys and cylinders as well as setting the key to expire on a specific date at a specific time. Also, lost or stolen key can be easily be deleted electronically

Q Is the system expensive to install?

A The system has a low installation & maintenance cost along with a long life cycle. CLIQ® cylinders are designed to fit into Euro Profile mechanical lock cases. No wiring is required to the cabinet. The wall programming device requires an Ethernet connection and power through a 12-24V adapter or alternatively power over Ethernet

Q Who maintains the system?

A System maintenance is normally assigned to a member of the hospital staff who will be responsible for programming/issuing of keys along with interrogation of audit trails

Q How many audit trails can be collected from a single key?

A The programmable user key stores the last 1,800 transactions and the last 20 foreign transactions

Q How large is the cylinder memory?

A 200 key groups; each key group holding 65,000 individual unique key combinations. This provides up to 13 million unique possible key combinations in one cylinder and can retain a black list of 3,000 keys

Q Can I take an audit trail from a cylinder?

A Yes, the cylinder stores an audit trail of the last 1,000 key insertions

Q What happens if a key is lost?

A We recommend that time schedules are set to each key, so if the key is not returned it will expire. Keys can be removed from the cylinder with the programming key or directly from the system. If subsequently found keys can be added back and re-issued. In the event that an audit trail is required for a lost key, lock cylinders can be interrogated using a programming key (each cylinder stores an audit trail of the last 1,000 key insertions)

Q How long do the batteries last?

A The battery is located in the key, not the cylinder. Under normal usage a battery will operate up to 20,000 cycles or 2 years

Q How is the information sent?

A Via the internet to a wall mounted PD

Q Can the information be taken off the Wall mounted PD by anyone?

A No, there is no information stored on the PD, it is stored on a server until the correct key is inserted and only then is the information securely transferred

Q Is it possible to access the system remotely?

A The CLIQ® environment works in an Amazon cloud hosted server environment ISO27001 Accredited, maintained and supported by Abloy allowing remote user access via a secure connection from anywhere in the world.

Q Where is the server?

A Amazon - Republic Of Ireland

Q Can I host this myself?

A Yes, but there would be additional costs

Q What if there is no internet connection on a particular site?

A A mobile PD is available which will work on the GSM network

Q How can I better control the issuing of keys?

A Through the use of Traka21 (key safe) keys can be automatically assigned to specific users. Keys are issued using either the staff members own security card or via pin number technology.

Q Is it possible to integrate the CLIQ® key with other systems?

A Unique RFID tag identifiers can be inserted into the key allowing it to be used with other MIFARE card based RFID systems

Drug & Medicine Cupboards - Single Door

Features

- Independently tested to BS2881: 1989 (Security Level One) Specification for Cupboards for the Storage of Medicines in Health Care Premises
- BS3621 anti-pick & drill, key retaining five pin cylinder lock (supplied with 3 keys)
- Single door cupboards available as either 870 / 1870mm high
- Available with either…
  - Plastic Trays
  - Shelves
  - Shelves & Dividers
- Key profile unique to Hospital Metalcraft Ltd, offering 250,000 differs
- Compatible with CLIQ®, integrating electronics into high security mechanical disc cylinders & keys, combining electronic security & remote management in real time
- Optional Digital Push Button Lock (does not conform to BS 2881: 1989)
- Worksurface supplied with 870mm cupboards (removable to assist with positioning under existing worktops)
- 0.9mm (20 Gauge) mild steel welded construction
- Modular design allows for easy interchange with HTM 63 storage systems

Dimensions (w x d x h)

- Trays
  - Shallow Tray - 355 x 405 x 100mm (internal)
  - Deep Tray - 355 x 405 x 150mm (internal

Plastic Trays

- Interchangeable with our popular Caretray range
  - 870mm Cupboards - 3 x 100mm, 2 x 150mm trays
  - 1870mm Cupboards - 7 x 100mm, 5 x 150mm trays
  - Supplied with 7 x 100mm & 5 x 150mm trays
- Translucent, impact-resistant trays & dividers, smooth surfaces & radiused edges assists cleaning (compatible with steam cleaning / high temperature machine washing)
- Trays feature an integral handle with a plastic clip-on label cover (coloured label strips supplied - white, blue, green, yellow & red)
- 100 / 150mm deep trays, can be subdivided in both length & width using removable dividers (max load 5kg)
- 2 x long & 2 x short dividers supplied with each tray

Shelves

- Adjustable at 50mm increments
  - 870mm Cupboards - 3 x shelves
  - 1870mm Cupboards - 8 x shelves
- Suitable for the storage of MDS frames (if required)
  - 870mm Cupboards - 6 x frames
  - 1870mm Cupboards - 16 x frames

Shelves & Dividers

- Adjustable at 50mm increments
- Removable dividers 100mm high adjustable at 25mm increments
  - 870mm Cupboards - N/A
  - 1870mm Cupboards - 8 x shelves & 16 x dividers

PC905	Micro-switch (PC Range Compatible)

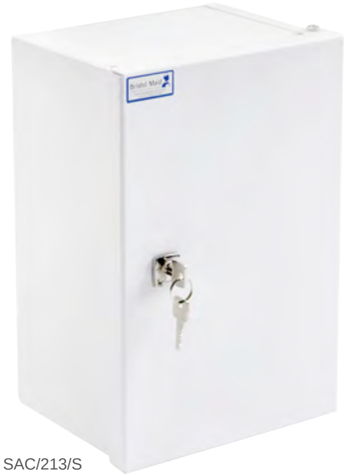
Buzzer Alarm

Features

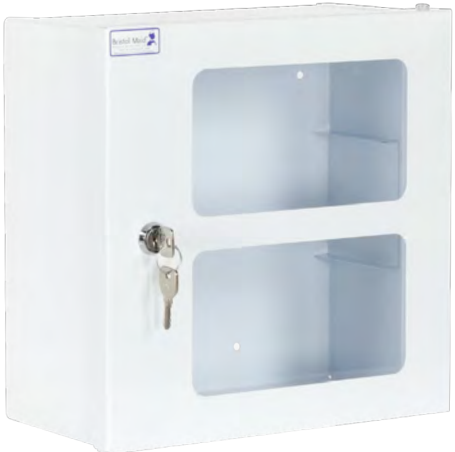
- Replacement circuit board with buzzer
- Compatible for PC, MS & CD cabinets fitted with a light unit
- Buzzer pulses on/off after the door has been open for 2 ½ minutes
- Factory fit only to cabinets fitted with lights

Item	Description
PCB	Buzzer Alarm

Patients / Residents Own Medication Cabinets - Self Administration



SAC/213/S



SAC/313/S/VP

SAC/413/S

Features

- Suitable for use with…
    - Drugs retained in original packs
    - Individual MDS packs with dividers & name cards
    - Nomad cassettes
    - Roll type blister packs
- Available as side or bottom hinged fitted with either a CAM or electronic push button lock
    - CAM - Supplied with two keys & uses 40 different master suites (for security we recommend that each ward/wing operates a different series, master keys available at additional cost)
    - Electronic Push Button - Battery operated
- Available with a solid door or with an inset perspex visibility panel
- 0.9mm (20 gauge) mild steel, spot welded construction
- Mounting holes in back/bottom (fixings not included)
- Range of mounting plates (optional)
- Shelves not included (optional)
- Supplied with a self-adhesive name card holder (length 60mm)

Standard Colours

- Paint - White

Electronic Push Button Lock

- Uses a 10-button keypad
- Easy programming & code change
- Four operating codes with differing levels of authority - Master / Sub-Master / User / Technician
- User codes are 4 digits
- Master & sub-master codes are 8 digits
- 15,000 openings on 2 x AAA cells (supplied)
- Low battery warning with failure override using 9v battery across LED's (+/-) & master code

Pharmacy & Vaccine Refrigerators - IntelliCold™, Solid & Glass Doors

LABCOLD
IntelliCold
5.0

5RLDG0519DIGILOCK

5RLDF0119

5RLDF0219

Features

- Compliant with the Department of Health Green Book
- Recommendations in the General Pharmaceutical Council Standards
- Royal College of Veterinary Surgeons Guidelines

- Designed specifically for the safe storage of vaccines and pharmaceuticals
- Available as bench top, under bench, wall fitting or free-standing
- Temperature range +2°C to +8°C
- Second wandering temperature probe (can be placed anywhere within the refrigerator, ideal for pharmacists needing to comply with MHRA regulations)
- IntelliCold® touch screen controller
  - Automatic 24/7 temperature & fridge operation data recording (micro SD card required)
  - Min/max temperature control, display & recording
  - Displays temperature from both probes
  - High/low temperature alarm
  - Door open alarm
  - Mains failure alarm (requires batteries)
  - Alarm battery back-up
- Internal LED light
- Access port & remote alarm contacts
- Fan assisted cooling
- Off cycle auto defrost
- Low GWP environmentally friendly refrigerant
- Self-closing doors with door open alarm
- Available with either a CAM or digital push button lock
  - CAM - Supplied with two keys
  - Digital Push Button - Mains operated (uses a 4-digit pin)
- Adjustable shelves
- Micro SD card (optional)
- UKAS traceable calibration service (optional)
- Repeat alarm (optional)

Standard Colours

- Exterior - White / Blue
- Interior - White

Paper Roll Holder

E02

- Fitted to the head section
- Suitable for rolls max 510mm wide x 200mm diameter

Side Support Rails (Pair)

E03

- Swing down-side support rails
- Can be added to either one or both sides of the couch to provide additional safety for patients

Cushioned Side Support Rails (Pair)

E04 - E04/U

- Vinyl upholstered swing down-side support rails
- Can be added to either one or both sides of the couch to provide additional safety for patients
- Upgrade option for factory fitted side support rails (E04/U)

Breather Hole & Plug

E05

- Breather hole located in backrest section to improve patient comfort when in the prone position
- Supplied with a plug / insert

Battery Back Up

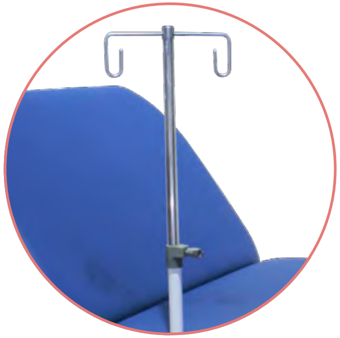
E06

- Allows the couch to be lowered in a controlled manner in the event of a power failure
- Provides enough charge for 1-3 cycles

Height Adjustable Armrests (Pair)

E07

- Height adjustable easy clean moulded polyurethane armrests



Infusion Pole

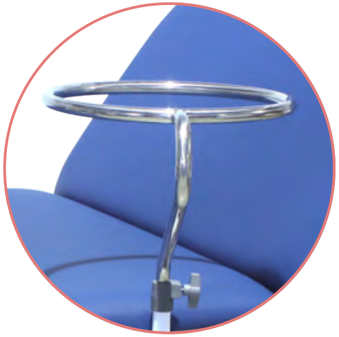
E08

- Height adjustable two hook infusion pole
- Cannot be fitted in conjunction with side support rails - E03, E04, E04/U

Bowl

E09

- 360mm diameter 304 Grade stainless steel bowl



Bowl Support

E10

- Support to hold 360mm diameter 304 Grade stainless steel bowl
- Order bowl separately

Lithotomy Stirrups (Pair)

E11

- Traditional lithotomy stirrups

Leg Supports (Pair)

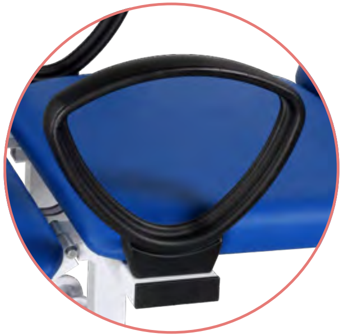
E12

- Fully adjustable easy clean moulded polyurethane leg supports

Phlebotomy Armrests (Pair)

E13

- Fully adjustable easy clean moulded polyurethane armrests



Side Support Loops (Pair)

E14

- Side support loops to assist mount / dismount & provide patient security

Phlebotomy Armrest (Single)

E15

- Fully adjustable easy clean moulded polyurethane armrest
- Compatible with EC5000

Battery Back Up

E18 (Bariatric Couch)

- Allows the couch to be lowered in a controlled manner in the event of a power failure
- Provides enough charge for 1-3 cycles

HTM71 Racking

Features

- Fully configurable freestanding modular racking for use with 600 x 400mm modular trays & baskets
- Available to suit 600 or 400mm insertions
  - Type A - 600mm insertion
  - Type B - 400mm insertion
- Trays & baskets supported on adjustable moulded plastic/glass fibre runners
- Runners can be positioned horizontal or angled (approx. 25 degrees - requires angle adaptor brackets)
- Integral stops on the runners allow trays/baskets to be accessible in two positions
  - Straight (approx. 5 degrees)
  - Angled (approx. 25 degrees)
- Runners offer pass through facility allowing access on either side
- Anodised extruded aluminium uprights & cross members
- Bolted construction using high quality moulded fixings provides rigidity & allows the system to be altered easily
- Available as either static or mobile units
  - Static - Adjustable feet allow levelling on uneven floors
  - Mobile - 50/80mm pressed steel castors
- Optional wall mounting brackets allow static units to be fixed securely to the wall, (when units are loaded over 100kg
- Supplied for self-assembly

Dimensions (w x d x h)

Static

Type A - 600mm Insertion
- Single Bay - 494 x 642 x 1940mm

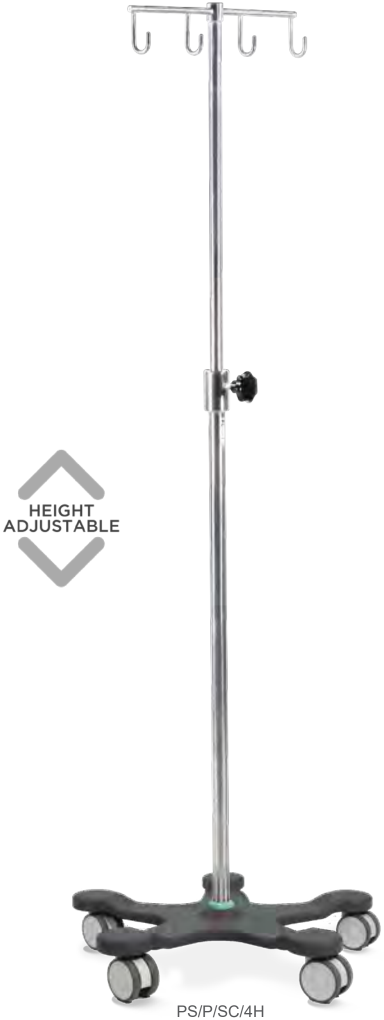
Mobile Pump Stands 212
Mobile Infusion Stands 216
Clamping Infusion Stands 221
Wall Mounted Infusion Holders 221

Mobile Pump Stands - Polyurethane, Easy Clean



PS/P/SC/4H

Smooth edges & contours, allows easy & effective cleaning

Features

- Range of stands designed specifically to hold blood warmers, pumps & syringe drivers
- Five leg base with low centre of gravity to assist stability
- 32mm diameter 304 grade stainless steel upright & 25mm diameter pump support bows
- Polyurethane overmoulded base with smooth edges & contours provides…
  - Water-resistant finish, allowing for easy & effective cleaning (including steam cleaning)
  - Shield for the castors
  - Impact protection to patients & staff, reducing the risk of skin abrasions & bruising
  - Protection to the fabric of the building
- Height adjustable upright using a handwheel (1,300 - 2,000mm)
- Four U shaped hooks
- Maximum recommended load…
  - Hooks - 12kg per stand plus
  - Fixed Upright/s - 22kg per stand
- 75mm polypropylene / thermoplastic rubber twin-wheel castors (1 x anti-static)

Dimensions (w x d x h)

- Overall - 620 x 620 x 1,300 - 2,000mm
- Vertical Clamping Area
  - PS/P/SC/4H - 975mm
  - PS/P/HC/4H - 771mm (upright) 2 x 646mm (support bows)

Standard Colours

- Base - Grey
- Upright & Support Bows - Stainless Steel

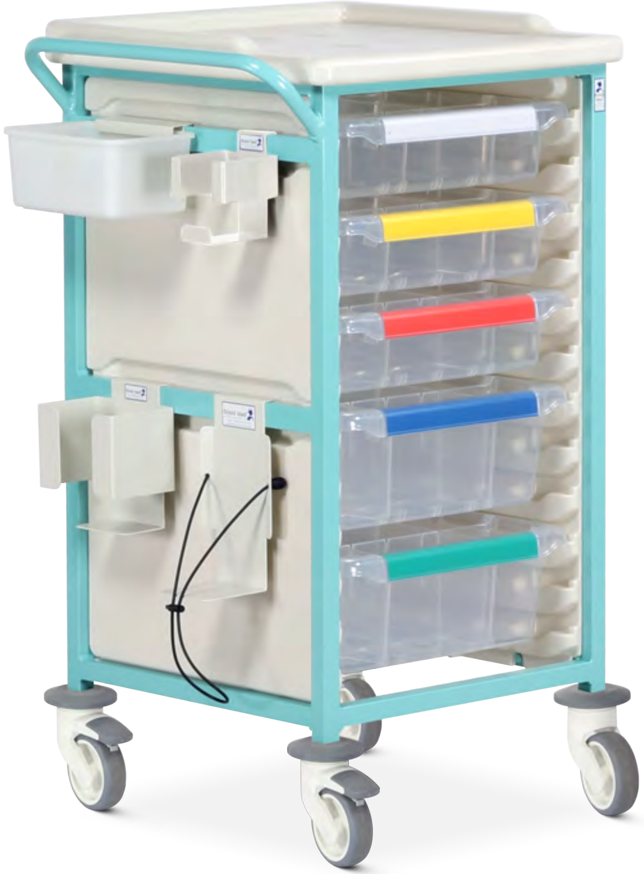
Phlebotomy Chairs - Variable Height, Bariatric 263
Phlebotomy Chairs - Fixed Height 264



CTPHLEM1/10/3S2D

Caretray Trolley - Phlebotomy

Features

- Trolleys designed for use with Phlebotomy
- Quick & easy disassembly, assists thorough & deep cleaning
- Available in mild or stainless steel (requires no on-site assembly)
  - Fully welded mild steel frame, powder coated in a durable epoxy paint
  - Seamlessly welded, one piece 304 grade stainless steel frame
- Ergonomic push handle fitted to one side of the trolley ensures correct posture & keeps feet away from the frame, ideal for mobile phlebotomy or in cases where the trolley is wheeled for long periods of time
- Recyclable polypropylene one-piece top & side panels, smooth surfaces & radiused edges assists cleaning (compatible with steam cleaning)
  - Top Panel - Raised edges on three sides provide defined grab points to act as push handles, whilst an integral rim at the front contains spillages (max load 30kg)
  - Side Panels - Incorporate runners with positive stops preventing trays from being accidentally withdrawn (symmetrical design allows tray insertion from either side)
- Carerails fitted to either side support a wide range of accessories
- Available with a solid grade laminate door & back panel providing security for the contents of the trays
- Two locking options…
  - CAM Lock with Wing Handle - Supplied with two keys
  - Electronic Push Button Lock - Programmable four-digit code
- Trolley pre-configured with the following accessories…
  - Alcohol Gel Holder
  - Debris Bin & Bracket
  - Glove / Mask Box Holder, One Box
  - Sharps Box Holder
- Translucent, impact-resistant trays & dividers, smooth surfaces & radiused edges assists cleaning (compatible with steam cleaning / high temperature machine washing)
- Trays feature an integral handle with a plastic clip-on label cover (coloured labels supplied - white, blue, green, yellow & red)
- 100 / 150mm deep trays, can be subdivided in both length & width using removable dividers (max load 5kg)
- 2 x long & 2 x short dividers supplied with each tray
- Polyurethane ring buffers offer protection to both the trolley & fabric of the building, smooth surfaces assist cleaning
- 100mm polymer castors, 2 off braking

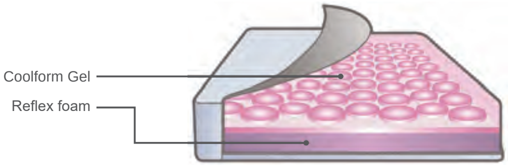
Seat Options For Pressure Management

Cushions are covered in multi-way stretch, vapour permeable fabric which is wipeable, removable, washable at 95°C, incontinence proof & breathable.

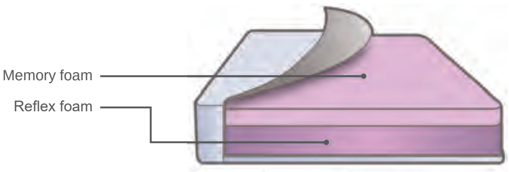


Coolform

Pressure Risk MEDIUM HIGH

For those sitting for long periods with specific comfort issues, such as a high risk of pressure sores. Uses the latest medical grade silicone gel technology allowing pressure to be evenly distributed.

The gel conforms to the shape of the body, equalises to body temperature, allows air to flow easily & is totally odourless & hypoallergenic.

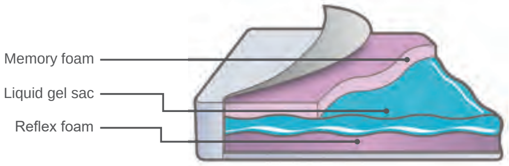


Viscoform

Pressure Risk LOW MEDIUM

For those who have good posture & mobility, but are seated for periods longer than one hour, require pressure relief & supported comfort.

High density foam provides support, whilst a top layer of memory foam allows submersion into the cushion, providing a large surface area to reduce pressure levels.

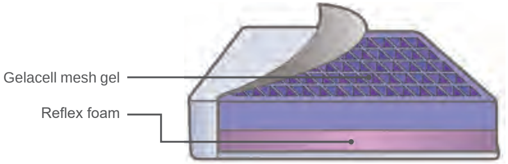


Liquiform

Pressure Risk MEDIUM HIGH

For those who have good posture & mobility, but are seated for long periods of time, require pressure relief & supported comfort. Excellent for people with little fatty tissue.

High density foam provides support, topped with layers of fluid liquid gel & memory foam to provide high levels of pressure relief. The liquid gel helps to dissipate heat, whilst constantly adapting to movement.

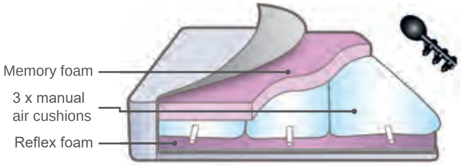


Celliform

Pressure Risk MEDIUM HIGH

For those sitting for long periods of time with specific comfort issues, such as a high risk of pressure sores & sheer forces.

Gelacell's unique grid design eliminates pressure points, contouring in response to the transfer of weight, evenly distributes pressure & reduces heat absorbtion, keeping the seat cooler & fresher.



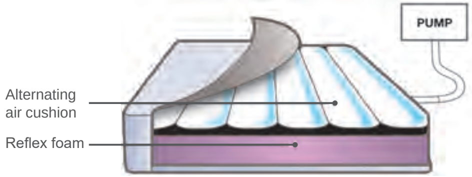
Airform

Pressure Risk HIGH

For those who have good posture, but are unable to alter their position easily
& require high level pressure care.

This cushion provides the benefits of an air cushion, however without the sensation of alternating changes in air pressure.

Suitable for users 40 - 127kg.



Dynaform

Pressure Risk VERY HIGH

For those at very high risk of developing pressure sores, or have a history of sores, where the priority is to prevent further pressure damage.

Dynaform is a dynamic alternating air cushion, which constantly changes air levels within its cells to recreate the effect of pressure relieving & prevent pressure build up.

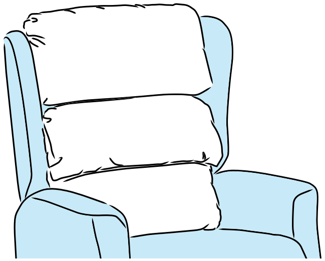
Air cell features
- 6 dynamic cells 10cm wide
- 3 cell cycle repeated every 9 minutes

Suitable for users 40 - 121kg.

Please note the Dynaform cushion does need an electric supply at all times to operate.

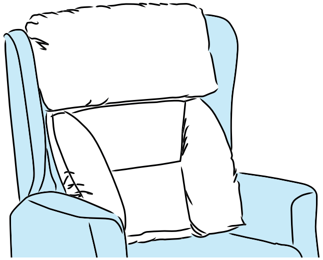
Pressure risk levels detailed are for guidance only. Each individual user has different posture, medical needs & health issues which contribute to the performance of any pressure cushion. If in doubt, please consult a GP or Health Care Professional.

Back Cushion Options



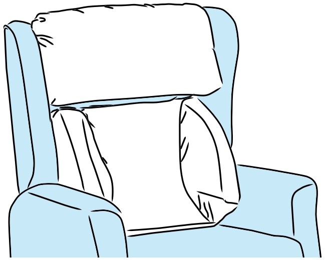
Waterfall Back Cushion

Individual waterfall cushions, fully adjustable to accommodate maximum postural support



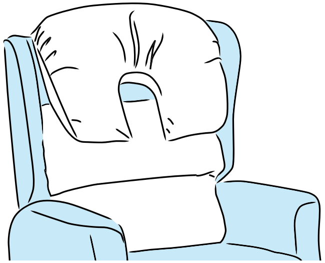
Comfort Lateral Back Cushion

Soft fibre filled removable lateral cushion for lower back & side lumber support, without feeling restricted



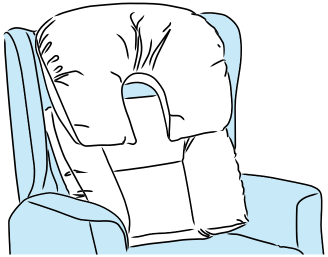
Support Lateral Back Cushion

A foam filled back providing firmer lateral support with a soft fibre filled headrest



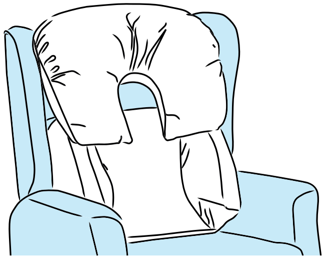
Large Profile Headrest with Waterfall Back

For those with limited head control & requiring a soft adjustable lumbar support



Large Profile Headrest with Comfort Lateral Back

For those with limited head control & requiring soft lateral support without feeling restricted

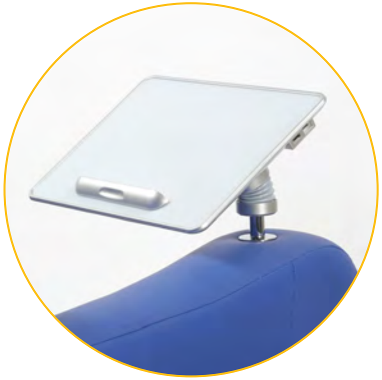


Large profile headrest with Support Lateral Back

For those with limited head control, requiring firm foam lateral lumbar & midline support

Table with Wireless Charging

360-degree rotation & angle adjustable table with a wipe clean surface. Supports QI wireless charging & fitted with a USB socket. Removable magnetic bar provides support & ensures correct positioning on the wireless receiver coil, wipe clean surface (w 345 x h 245mm)



Headrest Options

Item	Description	Weight
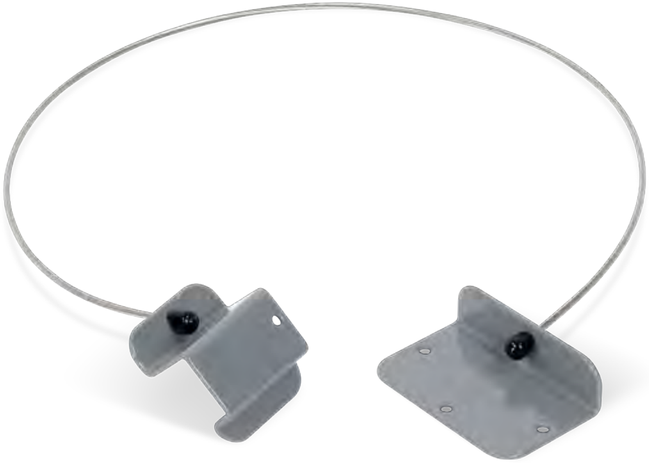
SEP/USBBMP	Universal Sharps Box Bracket Mounting Plate	0.2kg

Security Clamp

Features

- Allows the trolley to be secured to the 'fabric' of the building
- Requires no additional keys, utilises the trolleys own locking system
- One end is secured to the wall, the 'hook shaped' end is trapped by the door of the trolley when closed and locked
- Recommended wall fitting height 1000mm



Important Note - Security Clamps

It is a UK requirement that when the trolley is not in use it should be secured to the 'fabric of the building'. Not only does this prevent casual theft, i.e. trolleys being pushed to an isolated area and broken into, but also encourages good nursing practice, giving the trolley a 'permanent home'.

'Safe & Secure Handling of Medicines - Royal Pharmaceutical Society, GB- March 2005'

Item	Description	Cable Length	Weight
MT/1/6F	Security Clamp	950mm	0.8kg

Drawer Inserts

Features

- Plastic drawer inserts, height 100mm
- Assists segregation of drawer contents

Features

- Corrosion proof polymer shelving & racking system
- Polymer shelves with stainless steel corners & a patented no tools assembly, adjustable in 25mm increments
- All polymer posts
- Removable easy to clean polymer shelf mats (will fit most dishwashers) available as…
  - Grid Shelves - Open grid design allowing for the free circulation of air, improved visibility & light penetration
  - Solid Shelves - Solid design offering a tear free surface, ideal for the storage of sterilised DIN/ISO trays within theatres
- Microban® product protection inhibits growth of bacteria & aids infection control
- Available as stationary or mobile units
  - Stationary - Fitted with adjustable feet to allow levelling on uneven floors
  - Mobile - Fitted with 125mm swivel / braking castors
- Rack / unit capacity…
  - Stationary - 907kg
  - Mobile - 339kg
- Optional label holders, shelf dividers & ledges
- Lifetime anti-corrosion warranty
- Supplied for self-assembly

High Density Storage - Top-Track®

Features

- Increases the storage capacity of a given area by up to 50%
- Maximises all available space
- Can eliminate the need to expand a given area through the use of optimised storage
- Creates moveable aisles
- Eliminates hard to reach or 'dead' spaces
- The guide track is positioned above the shelving system
- Aluminium overhead track system acts as a guide for mobile units
- Floors are easy to clean
- Carts & trolleys can easily be easily manoeuvred into & out of the active aisle
- Mobile units are designed to accommodate medium-duty applications
- The maximum weight capacity of a Top-Track® mobile unit is 410kg

Overhead Guide Track

Room Design & Installation Service Available

High Density Storage - qwikTRAK®

Features

- Increases the storage capacity of a given area by up to 50%
- Maximises all available space
- Can eliminate the need to expand a given area through the use of optimised storage
- Creates moveable aisles
- Eliminates hard to reach or 'dead' spaces
- The guide track is positioned below the shelving system, & protects the floor from wear & tear (does not need to be mounted to the floor)
- Compensates for uneven floor surfaces
- Track acts as a guide for mobile units
- Mobile units are designed to accommodate heavy-duty applications
- Allows for double deep configurations, where two systems are joined together for even greater storage capacity
- The maximum weight capacity of a qwikTRAK® mobile unit is 970kg

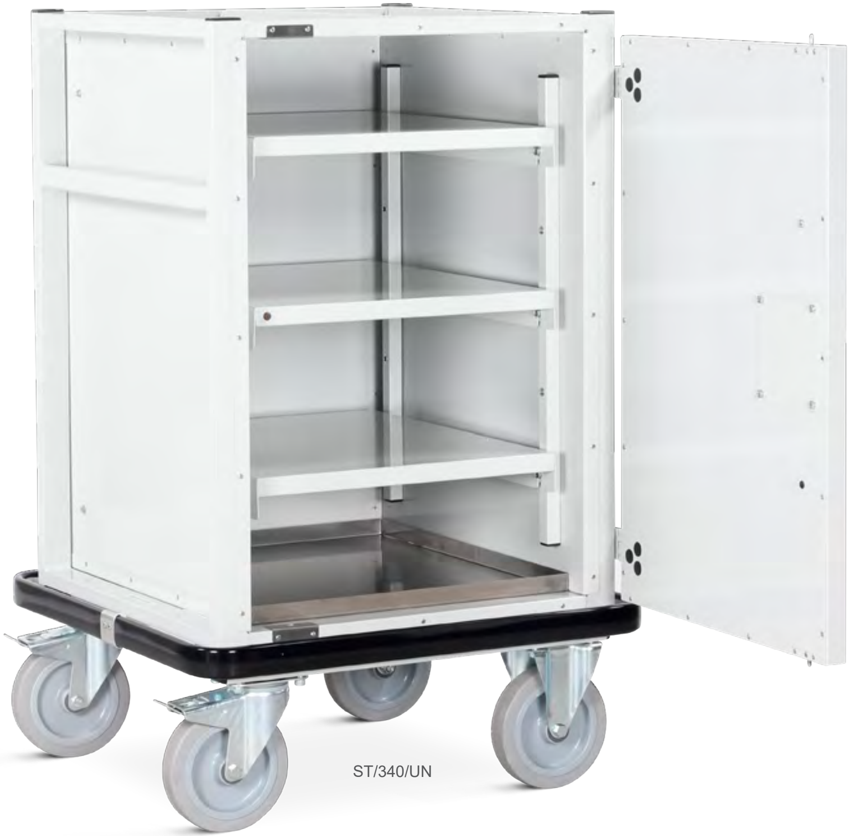
Sterile Supplies Trolleys - UN3291 Certified



ST/340/UN

Features

- Independently tested to UN3291 - Certificate of Packaging Performance for the Transportation of Clinical Waste
- Suitable for the transportation of DIN & ISO instrument trays
- Mild steel frame
- Lightweight aluminium cladding, shelves & door/s
- Powder coated for durability
- Locking door/s…
  - Fitted with a flush fitting handle fitted with a CAM lock offering two-point locking (supplied with 2 keys)
  - When opened, doors fold back flat at either end of the trolley*
- Three adjustable shelves, (max 40kg per shelf)
- Shelf size…
  - Small - 534 x 614mm (w x d)
  - Large - 1128 x 614mm (w x d)
- Removable stainless steel drip tray
- Inset push handles at either end of trolley
- Low level bumper rail offers protection to both the trolley & fabric of the building
- Optional tow bar fitting…
  - Tow bar fitted to the front (swivel castor)
  - Antiluce fastener fitted to rear (fixed castor)
  - Tow bar position approx. 360-380mm above floor
  - Recommended max speed 7kph for towed trolleys
- 200mm heavy duty cushioned castors, 2 x fixed, 2 x swivel braking
- Maximum capacity…
  - Small - 84k.0g per trolley
  - Large - 109.0kg per trolley

*Doors will not fold back flat when a tow bar is fitted

Dimensions (w x d x h)

- Small - 805 x 774 x 1257mm

Storage Cabinets - Keys, Traka21

Features

- User, key & access rights administration
- Screen based audit trail & reporting capability or export via USB port
- 21 robust, long-life iFobs with security seals
- 21 locking receptors with LEDs
- Robust & compact aluminium & ABS housing with no exposed hinges or obvious access points
- Manual override & door release functions in case of emergency
- Audible alarms

Operation

- Stand-alone 'Plug & Play' solution with advanced RFID technology
- Capacity for up to 21 keys
- Touchscreen interface
- PIN access to designated keys or keysets which are individually locked in place
- Keys are securely attached using special security seals
- Simple to configure through setup wizard
- No requirement for network connection or PC
- Concealed robust fixing points allow secure wall fixing
- Mains operated (optional battery back-up)

Dimensions (w x d x h)

- 246 x 95 x 427mm

Standard Colours

- Aluminium & ABS - White

Options

- SKR/25 - Security Key Rings (x 25)
- SKR/100 - Security Key Rings (x 100)
- SKB/BAT - Battery Back-Up

Traka21 iFob
Once attached to an iFob with a robust security seal, individual keys or keysets are assigned a specific receptor within the Traka cabinet & locked in place until released by an authorised user

How does it work?

1

Access
User enters unique PIN code to gain access to the cabinet

2

Key Removal
Keys & keysets are individually locked within the cabinet. Green LED's indicate those keys which the user can access. The user cannot remove keys highlighted by the Red LED's which continue to remain locked in place

3

Key Replacement
An amber light indicates the return position for the key

Item	Description	Weight
SKC21/TRAKA	Key Cabinet - TRAKA21	4.0kg

Storage Cabinets - Keys

Features

- Cabinets for the control & tracking of keys
- Available with either a CAM or electronic push button lock
  - CAM - Supplied with two keys
  - Electronic Push Button - Battery operated
- Adjustable hook bars accommodate different key lengths
- Removable control index for out of hours peace of mind
- Colour coded hook bars & tags ensure quick identification, (both numbered)
- Provided with security seals & loops to secure keys that require evidence of tampering or removal

Standard Colours

- Paint - Grey

Electronic Push Button Lock

- Uses a 10 button keypad and a # button. The # button is hidden beneath the handle when in the locked position
- Easy programming & code change
- Four operating codes with differing levels of authority
  - Master code
  - Sub-master code
  - User code
  - Technician code
- User codes are 4 digits
- Master & sub-master codes are 8 digits
- 15,000 openings on 2 x AAA cells (supplied)
- Low battery warning with failure override using 9v battery across LED's (+/-) & master code

Caretray Trolley - Laptop

Features

- Trolleys designed for use with laptops
- Quick & easy disassembly, assists thorough & deep cleaning
- Fully welded mild steel frame, powder coated in a durable epoxy paint (requires no on-site assembly)
- Recyclable polypropylene one-piece top & side panels, smooth surfaces & radiused edges assists cleaning (compatible with steam cleaning)
  - Top Panel - Raised edges on three sides provide defined grab points to act as push handles, whilst an integral rim at the front contains spillages (max load 30kg)
  - Side Panels - Incorporate runners with positive stops preventing trays from being accidentally withdrawn (symmetrical design allows tray insertion from either side)
- Carerails fitted to either side support a wide range of accessories
- Solid grade laminate door & back panel providing security for the contents of the trays
- Two locking options…
  - High Security Bolt Lock - Supplied with two keys
  - Electronic Push Button Lock - Programable four-digit code
- Trolley pre-configured with the following accessories…
  - Laptop Holder, Removable, Swing Arm
- Translucent, impact-resistant trays & dividers, smooth surfaces & radiused edges assists cleaning (compatible with steam cleaning / high temperature machine washing)
- Trays feature an integral handle with a plastic clip-on label cover (coloured labels supplied - white, blue, green, yellow & red)
- 100 / 150mm deep trays, can be subdivided in both length & width using removable dividers (max load 5kg)
- 2 x long & 2 x short dividers supplied with each tray
- Polyurethane ring buffers offer protection to both the trolley & fabric of the building, smooth surfaces assist cleaning
- 100mm polymer castors, 2 off braking
- When not in use, trolleys storing medicines should be secured to the wall using a Security Clamp (see locking & security accessories)

Dimensions (w x d x h)

- Overall Dimensions - 550 x 550 x 993mm
- Plastic Top - 455 x 455 (internal) at height 968mm

CTLAPTM1/10/3S2D/EPB

Item	Description	Weight
Electronic Push Button Lock		
CTLAPTM1/10/3S2D/EPB	3 x 100mm, 2 x 150mm Trays, Electronic Push Button Lock	39.3kg
CTLAPTM1/10/4S1D/EPB	4 x 100mm, 1 x 150mm Trays, Electronic Push Button Lock	39.0kg
CTLAPTM1/10/6S/EPB	6 x 100mm Trays, Electronic Push Button Lock	40.1kg

Workstations & Speciality Storage

Workstations 452
Storage Units 453
Catheter Storage Units 454

Workstations - Mobile, Polymer, Metro Starsys™

Features

- Adaptable workstations
- Available as single, double & triple width units
- Moulded body, drawers & doors from a lightweight polymer that will not rust, chip, dent, peel or corrode
- Laminate worktop (height 914mm)
- 125mm polymer castors, 2 off braking

Standard Colours

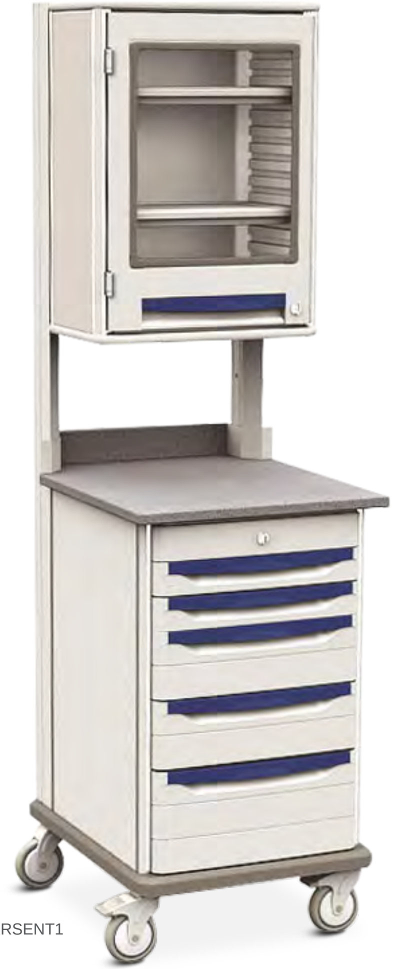
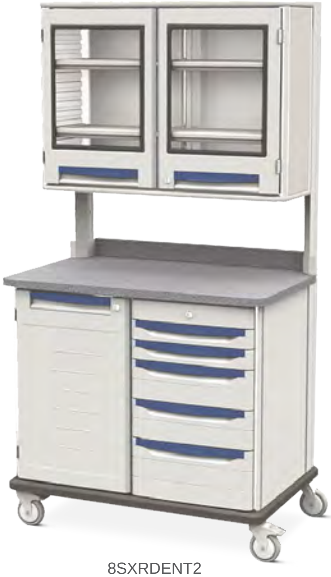
- Body / Drawers / Doors - Light Taupe
- Drawer / Door Handles - Slate Blue

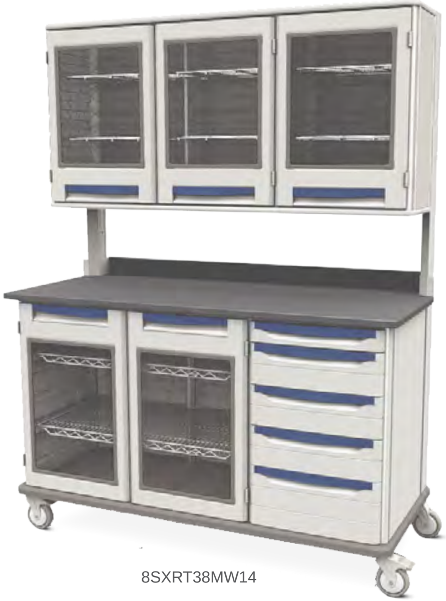
Other configurations available. Contact our customer services team to discuss your requirements



8SXRSENT1



8SXRDENT2



8SXRT38MW14

Item	Description	Overall Dimensions (w x d x h)	Weight
8SXRSENT1	Single, Drawers, Overhead Unit	600 x 726 x 2070mm	121.1kg
8SXRDENT2	Double, Drawers & Door, Overhead Units	1102 x 726 x 2070mm	188.2kg
8SXRD40MW10	Double, Drawers, Overhead Units	1102 x 726 x 2070mm	189.0kg
8SXRT38MW14	Triple, Drawers & Doors, Overhead Units	1606 x 726 x 2070mm	219.8kg

Storage Units - Mobile, Polymer, Metro Starsys™

Features

- Full height storage units
- Available as single, double & triple width units
- Moulded body, drawers & hinged/tambour doors from a lightweight polymer that will not rust, chip, dent, peel or corrode
- 125mm polymer castors, 2 off braking

Standard Colours

- Body / Drawers / Doors - Light Taupe
- Drawer / Door Handles - Slate Blue

Options / Accessories

- 8SXLABKIT - Drawer / Door Label Holders (x 10)
- 8SXREHAN - Push Handle

PAINT & LAMINATE

Paint & Laminate

Painted surfaces should be cleaned using a soft damp cloth & polished dry. Do not use abrasive cloth. Persistent exposure to wet or humid conditions could result in rust marks, or cause the paint to lift. Concentrated bleach, synthetic detergents, solvents, wax polishes or aerosol sprays should not be used.

Care & Cleaning

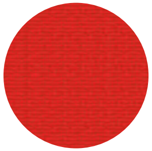
Vinyl's are resistant to most mild acids, alkalis, drinks & household stains. Clean with a damp, soapy cloth & rinse well with clean water. Dry the surface thoroughly. A soft brush with soapy water may be used to remove stubborn stains. Ensure surfaces are then rinsed & dried. Do not use solvents, bleaches*, abrasives, synthetic detergents, wax polishes or aerosol sprays. Disinfectants may be used in dilution as specified by their manufacturers.

* Chlorine Releasing Agents: Levels of 1-10,000 parts per million should pose no problems as long as the material does not endure long soakings at the higher concentrations. Rinse well with clean water. These include Haz-Tabs & other disinfectants commonly used in hospital infection control programmes. Surfaces are NaDCC compatible.

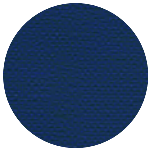
FABRIC & PLASTIC

Fabric - Camira Advantage

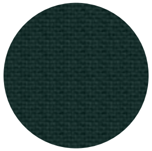
Vacuum regularly. Wipe clean with a damp cloth or shampoo using proprietary upholstery shampoo.



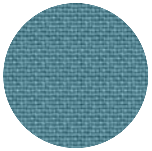
FRD - Red



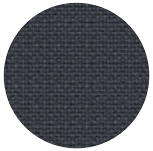
FCT - Cobalt



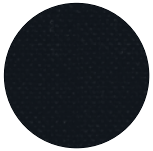
FAC - Aztec



FKR - Kingfisher



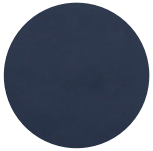
FGE - Granite



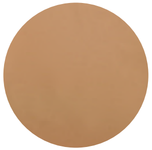
FBK - Black

Fabric - VP Multi-Way Stretch

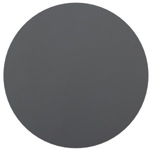
Wipe with mild detergent. Wash or dry clean using detergent up to 75°C. For disinfection use sodium hypo-chlorite at no more than 1,000 parts per million of active chlorine. Do not use biological or phenolic-based cleaners. Wash & dry completely. Some surface wrinkling may occur.



VPNB - Navy Blue

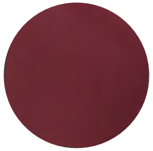


VPBE - Beige

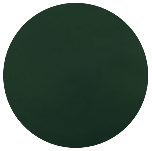


VPGY - Grey

VPBL - Black



VPBU - BURGANDY



VPGR - Green

FABRIC - Camira 24/7+

Vacuum regularly. Professionally dry clean or wipe clean with a damp cloth.

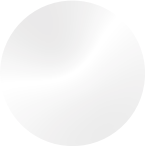
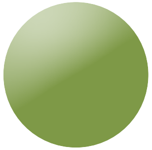
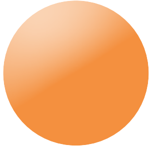
SGY - Grey



SWH - White



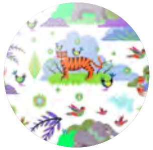
SOE - Olive



SMO - Mango

Panaz Patternistas for Childern

Vacuum regularly. Wipe clean with a damp cloth. Can be cleaned with water based proprietary cleaners & 5% sodium chlorite bleach solution, Haz-Tabs or Chlor-Clean.



SAVL - Savanna Lavender

25
Years

TECHNICAL INFORMATION

Dimensions & Weight

- Dimensions are stated in millimetres (width x depth x height)
- Weights are stated in kilograms
- Please ensure you are aware of the item size & weight prior to ordering

Castors

- All castors are fitted with non-marking tyres (with exception of some anti-static versions)
- Anti-static castors can be identified by either a yellow mark on the edge of the tyre, or where twin wheel castors are used, a different colouration to the tyre (the result of the addition of a conductive material)
- Castors & wheel bearings do not require specific maintenance other than regular cleaning
- The use of oil will breakdown the grease applied to the bearings, reducing the life of the castor
- We recommend that fittings are checked regularly & re-tightened as required
- Where anti-static castors are fitted, we recommend that the tyre is periodically cleaned to remove any dirt that may have built up. This will ensure a good contact between the tyre & the floor

Locks & Keys

- Locks should operate smoothly. If they do not please arrange urgent attention, & where necessary, obtain a replacement
- Locks require minimal maintenance & should only be lubricated using a dry lubricant such as graphite which can be purchased from most locksmiths (NEVER USE OIL)
- When ordering replacement locks or keys, please ensure that the product code & any letters / numbers from the key & lock are available

Paint

- We only use lead free epoxy polyester powder paint
- Where possible colours are applied in special booths to allow for overspray to be recycled
- Alternative colours are available at additional cost

Stainless Steel

- We use 304 & 430 grade stainless steel
    - Grade 304 is non-magnetic & used on products which are not painted
    - Grade 430 is magnetic & will be subsequently painted
- Please note that the term ‘stainless’ is not entirely accurate, as certain chemicals can ‘eat’ into the surface. In particular, ‘iodine’ which can badly corrode / stain, & as a result should not be used as a cleaning agent. Stainless steel products should always be dried after cleaning to reduce staining

Wood, Melamine & Laminate

- We only use FSC accredited materials. This provides assurances that the material is produced from well-managed forests & / or recycled materials
- We use a combination of melamine faced MDF / chipboard & high pressure laminates bonded MDF of chipboard substrates
- Edges are protected with 2mm ABS, T-Barb edging or sealed with varnish
- Both melamine & laminate panels offer some resistance to water penetration under normal usage
- We only use water based adhesives & varnishes

Upholstered Panels & Fabrics

- Vinyl upholstered panels are manufactured from ‘Flame Retardant’ materials, independently tested to BS 5852: 2006 Ignition Source 5, BS EN 1021-1: 2006, BS EN 1021-2: 2006 & BS 7176: 2007 Medium Hazard. Standard vinyl colours also contain an anti-microbial compound within its construction, which constantly migrates to the surface to replenish any material which is removed by cleaning or general usage
- Fabric upholstered panels are manufactured from ‘Flame Retardant’ materials, independently tested to BS 5852: 2006 Ignition Source 5, BS EN 1021-1:2006, BS EN 1021-2:2006 & BS 7176: 2007 Low Hazard
- Curtain screens are manufactured from ‘Flame Retardant’ materials, independently tested to BS 5438: Part 2

Caretray Trolley™ Range

The Caretray Trolley was developed specifically to meet the needs of the Healthcare Professional across a wide variety of disciplines including Minor Treatment, A&E, Theatre, Phlebotomy, ITU, and Outpatients to name but a few. It has become a flexible, dependable partner, a trusted workhorse in hospitals throughout the UK and Overseas.

In its 25th year of production, the Caretray Trolley offers excellent value for money & is available as either pre-configured or can be specified to meet your specific requirements…

TECHNICAL INFORMATION

Electric Columns & Actuators

- Electric columns & actuators comply with EMC Directive 2014/30/EU, Low Voltage Directive 2014/35/EU & RoHS2 Directive 2011/65/EU

Medical Devices

Where applicable, Hospital Metalcraft product is marked with the CE symbol to demonstrate compliance with the essential requirements of any European Directives (& transposing regulations) that may apply & for which a Declaration of Conformity is held. Hospital Metalcraft is registered with the MHRA (Medicines & Healthcare Regulatory Authority) in connection with product classified as ‘Class 1 Medical Devices’ for purposes of the Medical Devices Directive (93/42/EEC) with the registration number CA001358.

WEEE Regulations

Hospital Metalcraft meets its obligations as a business to business producer of Electrical and Electronic Equipment (EEE) through:

- Membership of the Veolia Environmental Services WEEE, (Waste Electrical & Electronic Equipment), Producer Compliance Scheme (Registration No. WEE/KE0677RX)
- Marking EEE placed on the market by Hospital Metalcraft with the mandatory crossed out wheeled bin symbol & Bristol Maid™ logo
- Making information available, (for EEE placed on the market after April 2007), to assist those engaged in treatment, recovery & recycling activities
- Arranging for the collection, treatment, recovery & environmentally sound disposal of obligated WEEE

Preventative Maintenance, Spares & Service Support

Bristol Maid™ products are designed & manufactured to cater for the demands of the healthcare environment, with the majority (under normal conditions) providing many years of trouble free service. Where annual maintenance or periodic inspections are required, we can offer comprehensive planned preventative maintenance through either a scheduled service contract or call out by our own trained Engineers. For your peace of mind & continued product reliability, please contact our customer service team for details on the following services.

- Preventative maintenance contracts & packages
- Supply of spare parts
- Site audit & equipment recommendations

Cleaning Guidance & Instructions

The maintenance of high standards of cleanliness on all surfaces & equipment is a crucial factor in the prevention & control of infection. Whilst all dust, dirt & moisture can harbour infection, the key risks are associated with contamination arising from contact with blood, body fluids, mucous membranes & damaged skin. In all cases surfaces, must be thoroughly cleaned & disinfected in order to destroy any pathogenic micro-organisms.

Bristol Maid products have been designed for use in demanding environments. Guidance & instructions can be found at - www.bristolmaid.com/cleaning-instructions

Family business

Hospital Metalcraft Ltd is a family company. We own our factory, production lines and delivery lorries. We continually invest into our staff and the development of new product ranges.

Healthcare focused

With an extensive portfolio that covers almost every discipline, we have solutions to cater for the demands of the healthcare environment.

Manufactured in the UK

Hospital Metalcraft is proud to be a British manufacturing success story. Strict quality criteria are applied to both the Bristol Maid product range designed and produced within our own manufacturing facility, and complementary equipment from carefully selected partners.

Delivered using our own lorries

Wherever possible we use our own fleet of lorries to ensure that your equipment arrives safe and secure.

The best quality

With over 65 years' experience, we are focussed on the design and manufacture of high-quality products which will create value for our customers. With a worldwide customer base, the Bristol Maid brand is recognised by many thousands of satisfied customers.

Approved supplier

We are an accredited NHS & public sector accredited supplier. This allows you to buy with confidence knowing your requirements for compliant and competitive tendering has already been met.

Support you can rely on

Our external sales representatives, sales support engineers and our customer service team are here to help you at every stage, from advice with product selection, managing the delivery of your order through to full service and repair support.

HOW TO ORDER

How to Order

- Orders are required in writing. Should you wish to order over the phone, payment is required in full (debit or credit card). Alternatively, we can issue a pro-forma invoice, payment is required in full prior to manufacture
- Orders should be submitted as an ‘official purchase order’ on company headed paper with all information clearly displayed
- Your order should contain the following information
    - Item No.
    - Description
    - Quantity
    - Delivery address
    - Invoice address
    - Full contact details, including name, email address, phone & fax numbers
- Where a quotation has been issued, please reference this to ensure any agreed discounts are applied
- Item codes & descriptions in this catalogue supersede all previous editions
- A full price list can be requested from our website
- Payments can be made by cheque, bank transfer, credit or debit card
- If you are a new customer, the first three orders will be processed on a pro-forma basis, paid in full prior to manufacture & delivery, after which a credit account may be applied for
- For our terms and conditions refer to www.bristolmaid.com
- For further information and assistance, please contact our customer services team on +44 (0)1258 484455

Payment Options

Your Partner for Healthcare Equipment & Furniture

Through many years' experience we can support you with the facilitation and project management of tenders and contracts.

- Specifying Requirements - We will analyse your needs to identify products that meet your requirements
- Product Demonstrations - We will allow you the opportunity to gain 'hands on' experience of our products to ensure that it is suitable for your needs
- Project Planning - We will work with you and your team to identify any constraints and agree delivery phasing to ensure that we are able to fully meet your expectations
- Scheduled Deliveries - We will deliver your order using our own transport to an agreed delivery schedule and, if agreed place the product and remove any packaging
- Installation & Commissioning - The majority of the products that we supply requires no installation or commissioning, however we can provide this where it is required
- Training - We can supply training to ensure that the products are used and maintained in the correct manner
- Full Service & Repair Support - Bristol Maid branded products are designed and manufactured to meet the demands of everyday use, which under normal conditions should provide many years of trouble-free use. However, there are times where attention is required due to wear and tear or misuse
- Maintenance Contracts - Peace of mind service contracts to ensure that your product is periodically checked, and where necessary adjustments and repairs are made
- Site Audit & Equipment Recommendations - We will support you with site and equipment audits

Custom Design & Manufacture

Whether it is a trolley that is slightly lower, a work surface that is slightly larger, a cabinet that must fit into a specific space or a unique colour scheme on a bedside cabinet, we recognise
that our standard product range may not always to be able to provide a product that meets your specific requirements.

If you require a unique product, please contact us so we can work together to develop a solution that will exactly match your needs. Our design capability allows us to provide everything from minor product specification changes through to a full design & development service.

MEDICAL FURNITURE & EQUIPMENT 2022

Founded in 1953, Bristol Maid has been manufacturing and supplying medical furniture & equipment for over 65 years. From design and manufacture to supply and installation, Bristol Maid has a reputation for providing high product quality, excellent customer service and value for money. We take pride in working in close partnership with our customers to deliver effective solutions based on innovative design and technology that will meet the demands of today while anticipating the solutions for tomorrow.

Our highly-trained staff are experienced in every aspect of customer support, from simple product selection to bespoke technical solutions, from on-site audits to complex project management arrangements, according to our customers' needs. Bristol Maid's commitment to quality is based on years of experience working with healthcare professionals in an exacting and regulated environment, and is supported by an ISO 9001:2015 quality management system that is registered with a UKAS accredited certification body.

If you require further assistance, please do not hesitate to contact our Customer Service team who are here to help; or alternatively can arrange for your Regional Sales Representative to visit and help find a solution that best suits your requirements.

Polymer Bedside Cabinet - Easy Clean

Features

- BS 3962 Part 6:1980 - Assessment of resistance to mechanical damage
- BS EN 12720:2009 - Furniture assessment of surface resistance to cold liquids
- BS EN 12721:2009 - Furniture assessment of surface resistance to wet heat
- BS EN 12722:2009 - Furniture assessment of surface resistance to dry heat
- BS 5852:2006 - Methods of the test for assessment of the ignitability
- BS 4875-7:2006 - Domestic & contract storage furniture
- Developed as part of Design Bugs Out & evaluated by the Department of Health
- Manufactured from recyclable polyethylene
- Open backless design ensures that all areas are accessible, whilst surfaces allow for easy & effective cleaning
- Distinct upper, middle & lower zones
    - Upper - Nurse zone with integral rim to contain any spillages. Ideally positioned for staff to use while standing
    - Middle - Patient zone provides storage area for patient use
    - Lower - Patient zone provides shelf for washbowl, footwear etc.
- Drawers can be inserted from either side, allowing the cabinet to be positioned either side of the bed
- Upper & middle drawers can be fitted with an L15 125KHz RFID lock, providing secure storage for patient medicines / property*
- 100mm polymer twin-wheel braking castors

*cabinets with locks are supplied with one patient card - a programming card will be required per ward / directorate as per hospital policy

Overbed & Overchair Table - Laminate

Features

- BS 2483: 1977 Specification for overbed tables (selected tests)
- BS EN 438-2: 2016 High-pressure decorative laminates (HPL). Sheets based on thermosetting resins (usually called laminates). Determination of properties
- Height adjustable using a gas damper (735 - 1045mm)
- Safety feature prevents trapping of the patient between the bed / chair & table
- Extruded aluminium column provides a smooth linear height adjustment
- Cantilever tubular base available as…
  - C shaped suitable for use with beds & chairs
  - Straight leg suitable for use with beds
- Laminate top with varnished edges available in three configurations...
  - Flat top
  - One varnished beech lip
  - Three varnished beech lips
- 50mm polypropylene / thermoplastic rubber twin-wheel non-marking castors
- Maximum load 25kg

Dimensions (w x d x h)

Features

Carerails

- Fitted to both sides of the trolley, compatible with a wide range of accessories

Frame

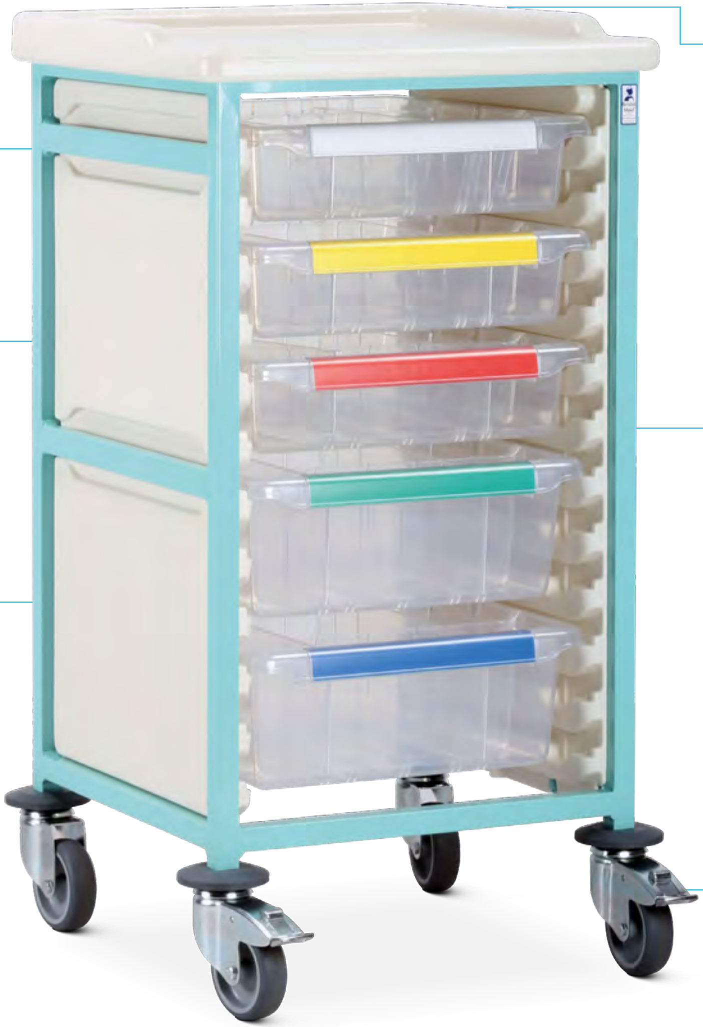
- Fully welded eliminating gaps
- 304 grade stainless steel or mild steel that is powder coated in a durable epoxy polyester paint

Side Panels

- One-piece moulding
- Smooth surfaces & rounded edges assist cleaning (compatible with steam cleaning)
- Runners with positive stops prevent trays from being accidentally withdrawn (symmetrical design allows tray insertion from either side)

Easy Clean

- One-piece mouldings
- Smooth surfaces & rounded edges assist cleaning (compatible with steam cleaning)
- Quick & easy tool-less disassembly assists thorough or deep cleaning programmes



CTM1/10/3S2D

Top

- One-piece moulding
- Smooth surfaces & rounded edges assist cleaning (compatible with steam cleaning)
- Raised edges on three sides provides defined grab points to act as push handles, whilst an integral rim at the front contains spillages
- Maximum load 30kg

Trays & Dividers

- Translucent & impact-resistant (100 / 150mm depths)
- Smooth surfaces & rounded edges assist cleaning (compatible with steam cleaning & able to withstand high temperature machine washing)
- Trays feature an integral handle with plastic clip on label cover, (suitable for use with our perforated coloured label strips)
- Trays can be subdivided in both length & width using simple slot in dividers
- Maximum load 5kg

Castors & Ring Buffers

- 100mm pressed steel or polymer castors (model dependant)
- Two braking castors fitted as standard
- Ring buffers offer protection to both the trolley & fabric of the building
- Smooth surfaces assist cleaning

Accessories

The Caretray Trolley has been developed specifically to meet the needs of Healthcare Professionals across a wide variety of disciplines including Minor Treatment, A&E, Theatre, Phlebotomy, ITU & Outpatients. Through a wide range of accessories, you can configure your trolley to suit your specific needs.

Locking & Security - Page 60

- Solid grade laminate / clear acrylic doors
- Range of locking options
- Security clamp & seals to safeguard contents

Laptop Holders - Page 74

- Suitable for use with Electronic Prescribing & Medicines Administration (EPMA) & Electronic Patient Records (EPR)
- Offers height, rotation & angle adjustment
- Laptop can be secured using a security clamp

Overbridge & Tilt Bins - Page 66

- Provides high level visible storage & assists organisation
- Tilt-bins available with 4, 5 or 6 clear compartments
- Compartments tilt to 45 degrees, to assist access of contents

Castors & Ring Buffers - Page 76

- Range of polymer castors
- Available in various braking & non-braking configurations
- Ring buffers offer protection to both the trolley & fabric of the building

Defibrillator Platform - Page 67

- Compatible with all popular defibrillators
- Adjustable, allowing compatibility with all popular models
- Platform rotates 360 degrees, whilst the arm swings 90 degrees from the worksurface

Carerail Mounted - Page 68

- An extensive range of accessories can be attached/suspended from the Carerails
- Allows the trolley to be configured to meet specific user requirements
- Accessories range from sharps & glove box holders, catheter racks & waste bins, through to work flaps & suction pump shelves

Trays, Shelves, Dividers & Labels - Page 77

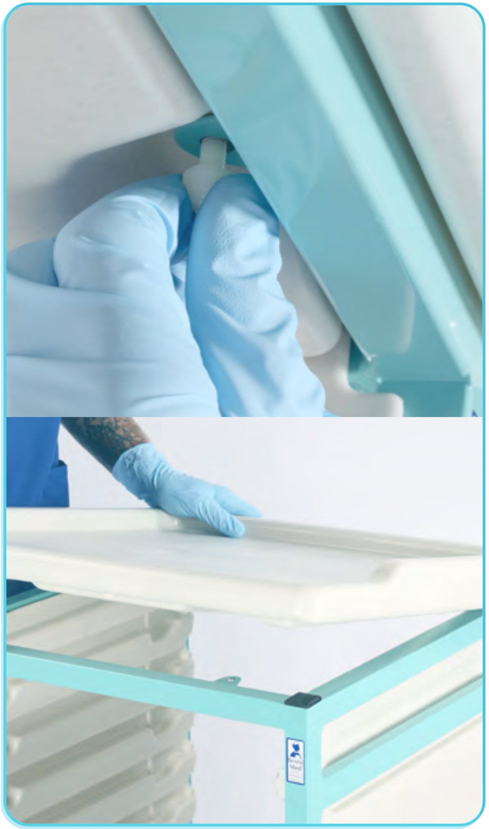
- Additional dividers assist segregation
- Coloured labels ensure that trays can be easily identified
- Flat shelves provide an alternative to trays

Disassembly & Cleaning

The design of the trolley allows for quick & easy tool-less disassembly providing access for all areas when conducting thorough or deep cleaning programmes. The simple guide below illustrates the disassembly & re-assembly process…

Remove Trays

Remove the trays from the unit

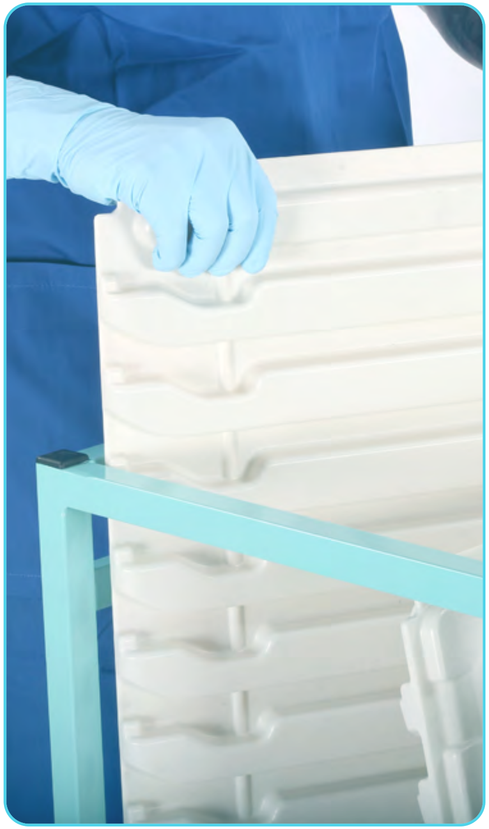


Remove Top

The top is held in place with two thumb screws, located on the underside of the top. Once removed, the top can be removed with a firm tug

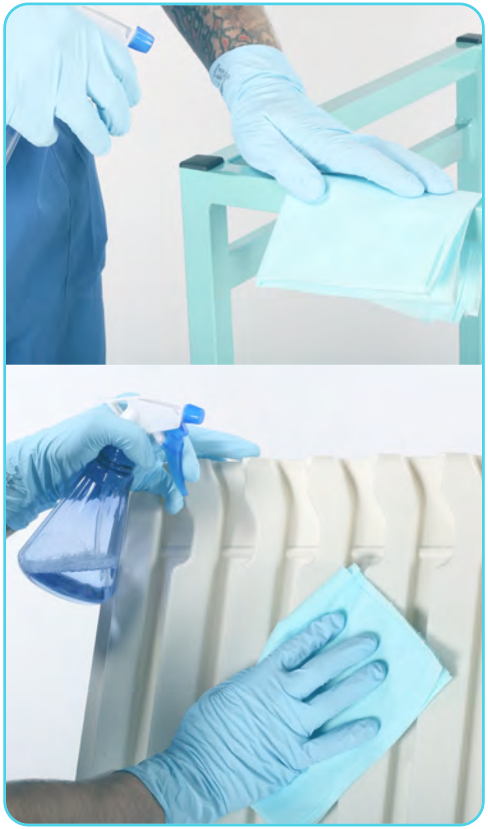
Remove Back Panel (if fitted)

Once the top has been removed, the back panel can be lifted clear of the cross members on the rear of the frame



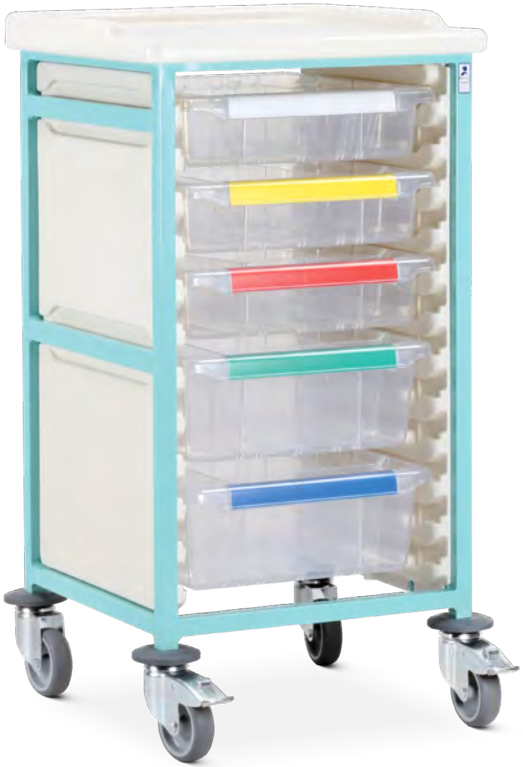
Remove Side Panels

The side panels are removed by lifting off the positioning inserts. Double height trolleys require thumb screws at the top of the lower panel to be removed.



Clean

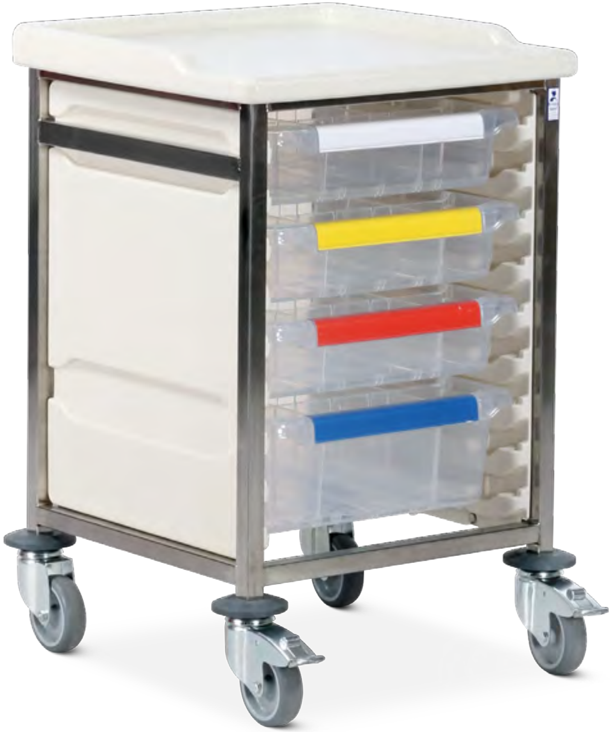
The frame, side panels & top can now be cleaned



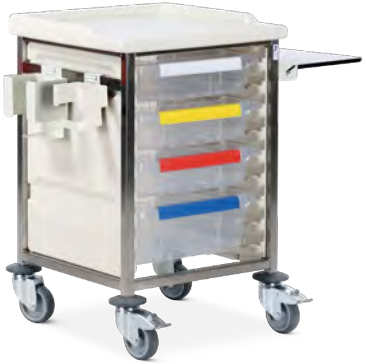
Reassembly

The trolley is re-assembled by repeating the steps in reverse

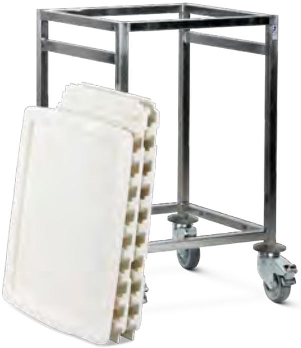
Caretray Trolleys - Stainless Steel, Low Level, Single & Double Column



CTS1/08/3S1D



CTS1/08/3S1D - shown with optional CT/WF, CT/ALC & GMBH/15



Easy disassembly & cleaning - page 38

Item	Description	Weight

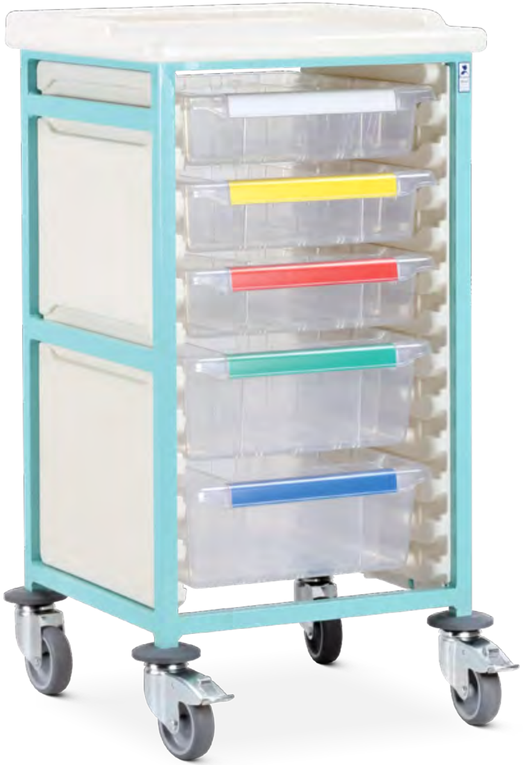
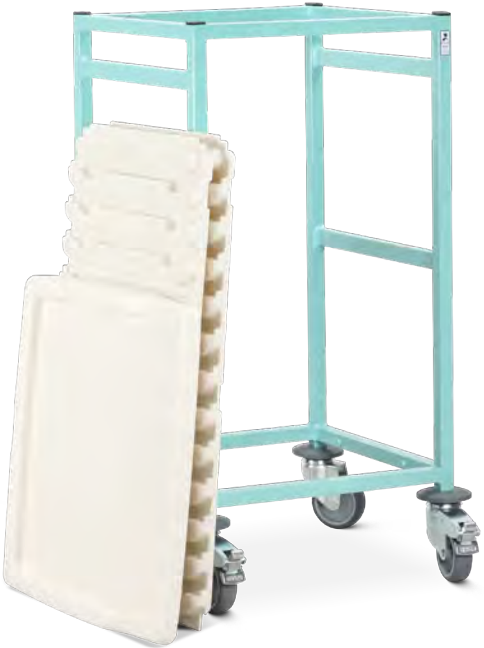
Caretray Trolleys - Mild Steel, Standard Level, Single & Double Column



CTM1/10/3S2D



Easy disassembly & cleaning - page 38

Item	Description	Weight
CTM1/10/1S3D	1 x 100mm, 3 x 150mm Trays	27.5kg
CTM1/10/3S2D	3 x 100mm, 2 x 150mm Trays	28.6kg
CTM1/10/4D	4 x 150mm Trays	27.9kg
CTM1/10/4S1D	4 x 100mm, 1 x 150mm Trays	28.3kg
CTM1/10/6S	6 x 100mm	29.4kg

Features

- Standard level, single & double column easy clean procedure trolleys
- Quick & easy disassembly, assists thorough & deep cleaning
- Fully welded mild steel frame, powder coated in a durable epoxy paint (requires no on-site assembly)
- Recyclable polypropylene one-piece top & side panels, smooth surfaces & radiused edges assists cleaning (compatible with steam cleaning)
  - Top Panel - Raised edges on three sides provide defined grab points to act as push handles, whilst an integral rim at the front contains spillages (max load 30kg)
  - Side Panels - Incorporate runners with positive stops preventing trays from being accidentally withdrawn (symmetrical design allows tray insertion from either side)
- Carerails fitted to either side support a wide range of accessories
- Translucent, impact-resistant trays & dividers, smooth surfaces & radiused edges assists cleaning (compatible with steam cleaning / high temperature machine washing)
- Trays feature an integral handle with a plastic clip-on label cover (coloured labels supplied - white, blue, green, yellow & red)
- 100 / 150mm deep trays, can be subdivided in both length & width using removable dividers (max load 5kg)
- 2 x long & 2 x short dividers supplied with each tray
- Polyurethane ring buffers offer protection to both the trolley & fabric of the building, smooth surfaces assist cleaning
- 100mm pressed steel castors, 2 off braking

Dimensions (w x d x h)

- Overall Dimensions
  - Single Column - 550 x 550 x 993mm
  - Double Column - 1005 x 550 x 993mm
- Plastic Top
  - Single Column - 455 x 455 (internal) at height 968mm
  - Double Column - 915 x 455 (internal) at height 968mm

High Level, Single Column	CTD1/14SS	CTDC1/14SS	5.2kg
High Level, Double Column	CTD2/14SS		10.2kg

Security Clamp

Features

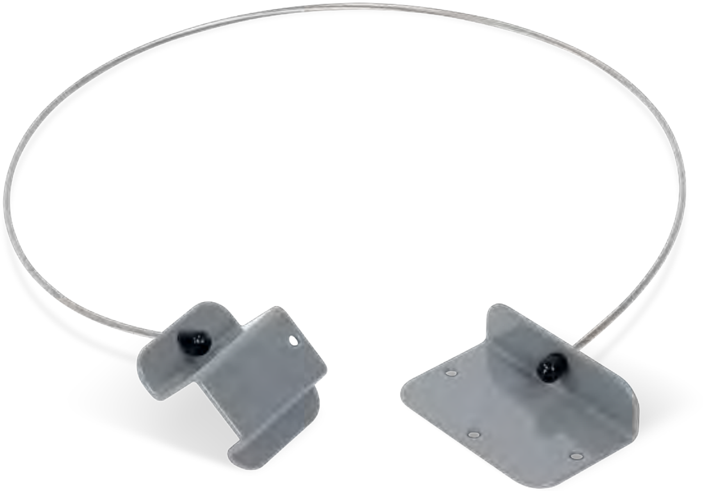
- Allows the trolley to be secured to the ‘fabric of the building’
- Requires no additional keys, utilises the trolleys own locking system
- One end is secured to the wall, the ‘hook shaped’ end is trapped by the door of the trolley when closed & locked
- Recommended wall fitting height approx. 1000mm



Important Note - Security Clamps

It is a requirement that when the trolley is not in use it should be secured to the ‘fabric of the building’. Not only does this prevent casual theft, i.e. trolleys being pushed to an isolated area & broken into, but also encourages good nursing practice, giving the trolley a “permanent home”.

‘Safe & Secure Handling of Medicines - Royal Pharmaceutical Society, GB-March 2005”

Item	Description	Cable Length	Weight
MT/1/6F	Security Clamp	950mm	0.75kg

Security Seals

Features

- Snap on plastic security seals
- Pack of 100

Item	Description
2PLCO026	Security Seals

Overbridge

Features

- Attaches to the rear uprights of the trolley (increases overall height by 625mm)
- Available as either painted mild steel or self-colour stainless steel
- Provides a fixing location for tilt bins (order separately)
- Compatible with single column trolleys only
- Factory fitted only

Standard Colours

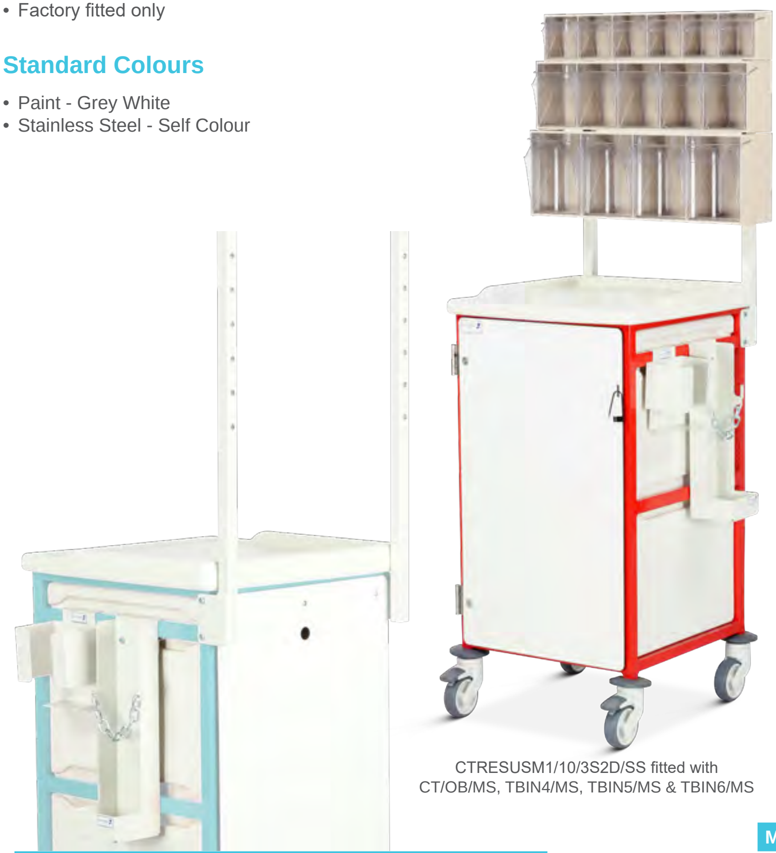
- Paint - Grey White
- Stainless Steel - Self Colour



CTRESUSM1/10/3S2D/SS fitted with
CT/OB/MS, TBIN4/MS, TBIN5/MS & TBIN6/MS

Item	Description	Weight
CT/OB/MS	Overbridge - Mild Steel	2.0kg

PT/LHNR/S

Laptop supported in a cradle fitted with a steel mounting bracket that can be fixed using either nylock or wing nuts

Item	Description	Weight
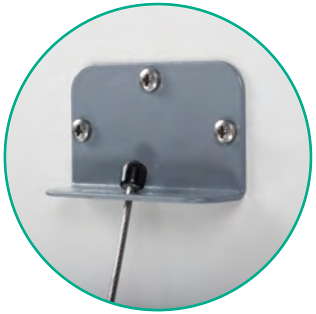
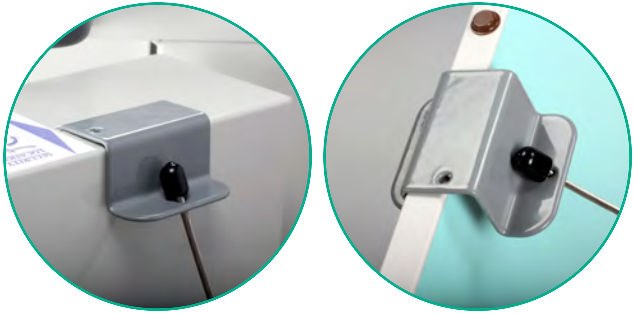
PT/LHNR/S	Non-Removable, Swing Arm	5.0kg

Fitting Your Security Clamp



Securely fasten one end
of the clamp to the wall



The ‘hook shaped’ end is trapped by the door when closed & locked

Security Clamp

Features

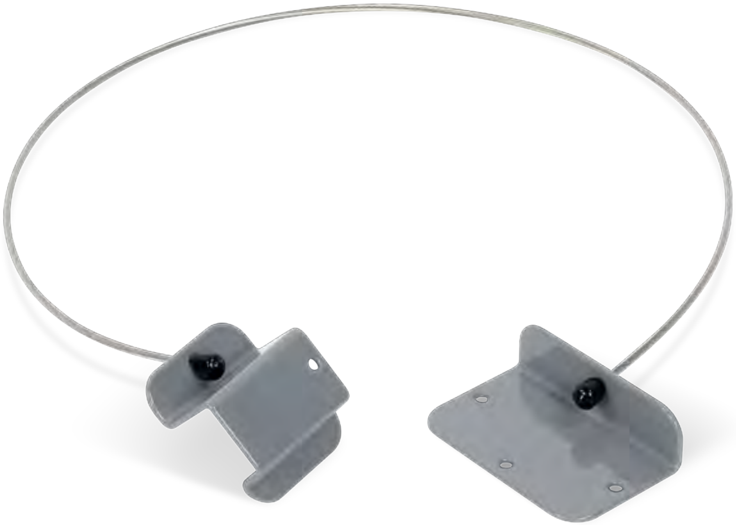
- Allows the trolley to be secured to the ‘fabric of the building’
- Requires no additional keys, utilises the trolleys own locking system
- One end is secured to the wall, the ‘hook shaped’ end is trapped by the door/lid of the trolley when closed & locked
- Recommended wall fitting height approx 1000mm



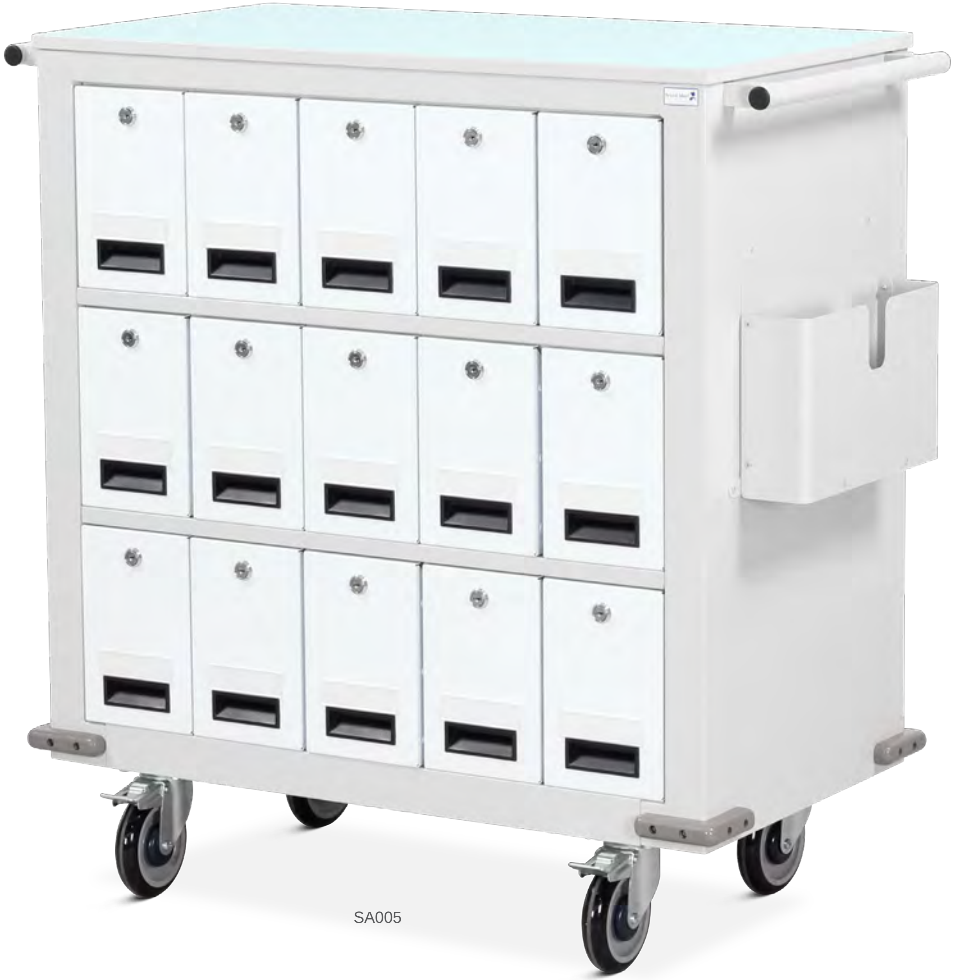
Important Note - Security Clamps

It is a requirement that when the trolley is not in use it should be secured to the ‘fabric of the building’. Not only does this prevent casual theft, i.e. trolleys being pushed to an isolated area & broken into, but also encourages good nursing practice, giving the trolley a “permanent home”.

“Safe & Secure Handling of Medicines - Royal Pharmaceutical Society, GB-March 2005”

Item	Description	Cable Length	Weight
MT/1/6F	Security Clamp	950mm	0.75kg

Distribution Trolleys - Lockable Drawers



SA005

Features

- Trolleys suitable for the distribution of drugs & medicines from pharmacy to the ward & also with self-administration / patient own drug schemes
- Provides secure drug delivery using drawers which when locked are securely fastened to the trolley
- Drawers are fitted with a CAM lock (supplied with two keys)
- Max load per drawer 3kg
- Supplied as standard with locks to differ, allowing each ward to have its own key & be responsible for removing the drawer from the trolley (remaining key should be kept at the pharmacy)
- Master keys available (additional cost)
- Upper work surface
- Push handles at either end
- Document pocket fitted to end of trolley
- Low level corner bumpers offer protection to both the trolley & fabric of the building
- 125mm pressed steel castors, 2 off braking

Dimensions (w x d x h)

- SA005 - 1026 x 523 x 1002mm
- SA025 - 1180 x 523 x 1002mm
- Drawer - 145 x 423 x 230mm (Internal)

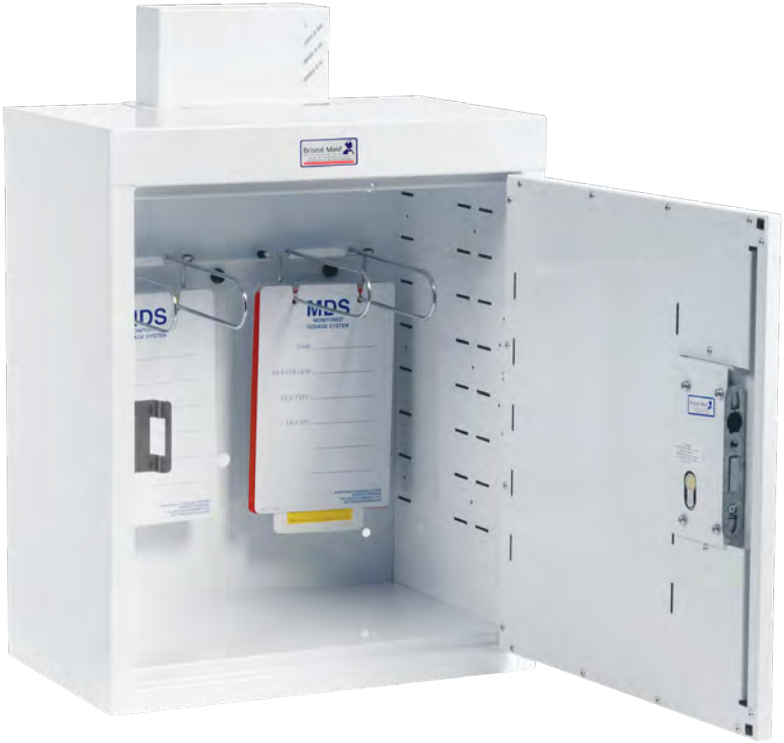
Drug & Medicine Cabinets - Blister Pack (MDS)



PC536/MDS
(Frames not included)

Features

- Independently tested to BS 2881: 1989 (Security Level One) Specification for Cupboards for the Storage of Medicines in Health Care Premises
- BS 3621 anti-pick & drill, key retaining five pin cylinder lock (supplied with 3 keys)
- Hooks at rear of cabinet support frames for the popular blister pack Monitored Dosage System (MDS)
- Key profile unique to Hospital Metalcraft Ltd, offering 250,000 differs
- Compatible with CLIQ®, integrating electronics into high security mechanical disc cylinders & keys, combining electronic security & remote management in real time
- Optional Digital Push Button Lock (does not conform to BS 2881: 1989)
- 12v DC LED lighting/warning system (model dependent) with volt-free contact to allow connection to light/nurse call systems. Requires 100v - 240v ~, 50Hz -60Hz, 0.3A Mains supply. Supplied fitted with a UK 3 pin plug. CE marked & conforms to the low voltage directives 73/23/EEC & 89/336/EC
- Lighting transformer housing adds 105mm to the overall height
- 0.9mm (20 gauge) mild steel welded construction
- Mounting holes provided in back (fixings not included)
- Modular design allows for easy interchange with HTM 63 storage systems

Standard Colours

- Paint - White

Controlled Drug Cabinets - Single Point Locking

CD015

CD125

CD010

Features

- Exceeds the statutory requirement for the storage of controlled drugs "The Misuse of Drugs (Safe Custody) Regulations 1973" (with the exception of CD040, CD045, CD140 & CD145)
- BS 3621 anti-pick & drill, key retaining six pin cylinder lock (supplied with 2 keys & identification card)
- Single-point locking
- Key profile unique to Hospital Metalcraft Ltd, offering 250,000 differs per profile
- Compatible with CLIQ®, integrating electronics into high security mechanical disc cylinders & keys, combining electronic security & remote management in real time
- Can be supplied with a micro-switch to allow connection to remote lighting/nurse call system by others (CD905), or supplied with a 12v DC LED lighting/warning system with volt-free contact to allow connection to light/nurse call systems. Requires 100v - 240v ~, 50Hz -60Hz, 0.3A Mains supply. Supplied fitted with a UK 3 pin plug. CE marked & conforms to the low voltage directives 73/23/EEC & 89/336/EC
- Lighting transformer casing adds 105mm to the overall height
- 1.5mm (16 gauge) mild steel, seamless welded construction
- Mounting holes provided in back (fixings not included)
- Adjustable & removable shelves
- Security of models CD005, CD010 & CD015 can be enhanced by concealing inside one of our 'Drug & Medicine Cabinets'
- Modular design allows for easy interchange with HTM 63 storage systems
- Supplied right hand hinging as standard, left hand available on request

Auditable Access Control for Medicines Management

What Is CLIQ®?

CLIQ® is the very latest in user-friendly, web-based security management. Part of the Protec² CLIQ® from Abloy range, CLIQ® is designed for remote sites, enabling the commissioning, programming and full administration of security management centrally via web-based software.

How Does It Work?

CLIQ® integrates electronics into mechanical cylinders and keys, providing a security solution that can be managed remotely. In short, this works like an electronic handshake: when the key is inserted it engages with the cylinder, sending a random number back to the key. The key replies with an encrypted response which is decrypted by the cylinder and if valid the cylinder then allows access. It is important to remember that the mechanical combination must match as well as the digital combination. CLIQ® allows a single key to be used with multiple cabinets or trolleys.be used with multiple cabinets or trolleys.

System Features

- Secure - Provides dual security through the patented Protec² CLIQ® from Abloy mechanical disc cylinders and keys along with DES encryption, a recognised electronic standard
- Easily Programmable - Keys can be added quickly and programmed to specific time and date schedules
- Fully Auditable- Audit trails can be accessed from both the cylinder and key
- Reduces Keys - One key can be programmed to open multiple cabinets or trolleys
- The CLIQ® environment works in an Amazon cloud hosted server
- maintained and supported by Abloy allowing remote user access via a secure
- connection from anywhere in the world
- Cost Effective - Low installation & maintenance costs along with a long lifecycle (requires no wires or system updates, power for the cylinder is provided by the key)
- Easily Retrofitable - CLIQ® can be used with a variety of locking solutions including euro lock profile cases, padlocks, camlocks & furniture locks

System Benefits

- Save valuable nursing time which can be used to deliver patient care
- Reduces delay in administering medication
- Improves drug & medicine security
- No more unlocked drug & medicine cabinets
- Eliminates the need to replace locks as a result of lost keys
- One key can be programmed to open multiple cabinets or trolleys
- The key is made personal to that member of staff, resulting in increased ownership and a reduction in the number of keys lost
- Easy to apply remote management, saves money and has the ability to cover several hospitals
- Time and date based access rights, with a full audit trail allow for full visibility of when visits were made
- New keys can be added to the system quickly and easily, removal of lost ones is hassle-free
- Reduction in time spent looking for the person holding the key

Process Flow

Start of Shift

Key Validation & Authorisation

Recurring validation forces users to place their key into the Wall PD. User authorisations are uploaded to the key

During The Shift

Operation

The key will only open cabinets where access permissions have been granted. Each time the key is used in a cabinet fitted with an PROTEC² cylinder an audit trail is created on both the key and cylinder

End of Shift

Automated Data Transfer

Key is placed into the Wall PD. Previous key transactions are automatically downloaded from the key and stored in the audit trail archive

System Components

CLIQ® Key

- Provides dual security through the patented PROTEC² mechanical disc cylinders and keys along with DES encryption, a recognised electronic standard
- Thin, light but incredibly strong key

PROTEC² Lock Barrel

- A bump proof mechanism
- Exceptionally smooth key entry and operation
- Can be master keyed and keyed alike with cylinders, cam and furniture locks as well as padlocks

Wall Programming Device

- Updates keys remotely (linking the server and users keys)
- Offers high level data encryption
- Allows the use of recurring validation, forcing users to validate their keys at the start of their shift whilst automatically downloading audit trails which are relayed to the server

Traka21

- Sophisticated stand-alone key management system to control the issuing of keys
- Keys are accessed using PIN number technology
- Holds up to 21 keys or keysets

Questions & Answers

Answers to common questions about CLIQ®

Q How secure is it?

A CLIQ® uses a DES encryption (Data Encryption Standard) so it is just as safe as online banking

Q Can I use this with an existing Abloy master key system?

A Yes; CLIQ® can be integrated with an existing PROTEC² master key system

Q What is the benefit?

A CLIQ® will give you some of the benefits of access control, such as adding, deleting and amending access rights, take audit trails from keys and cylinders as well as setting the key to expire on a specific date at a specific time. Also, lost or stolen key can be easily be deleted electronically

Q Is the system expensive to install?

A The system has a low installation & maintenance cost along with a long life cycle. CLIQ® cylinders are designed to fit into Euro Profile mechanical lock cases. No wiring is required to the cabinet. The wall programming device requires an Ethernet connection and power through a 12-24V adapter or alternatively power over Ethernet

Q Who maintains the system?

A System maintenance is normally assigned to a member of the hospital staff who will be responsible for programming/issuing of keys along with interrogation of audit trails

Q How many audit trails can be collected from a single key?

A The programmable user key stores the last 1,800 transactions and the last 20 foreign transactions

Q How large is the cylinder memory?

A 200 key groups; each key group holding 65,000 individual unique key combinations. This provides up to 13 million unique possible key combinations in one cylinder and can retain a black list of 3,000 keys

Q Can I take an audit trail from a cylinder?

A Yes, the cylinder stores an audit trail of the last 1,000 key insertions

Q What happens if a key is lost?

A We recommend that time schedules are set to each key, so if the key is not returned it will expire. Keys can be removed from the cylinder with the programming key or directly from the system. If subsequently found keys can be added back and re-issued. In the event that an audit trail is required for a lost key, lock cylinders can be interrogated using a programming key (each cylinder stores an audit trail of the last 1,000 key insertions)

Q How long do the batteries last?

A The battery is located in the key, not the cylinder. Under normal usage a battery will operate up to 20,000 cycles or 2 years

Q How is the information sent?

A Via the internet to a wall mounted PD

Q Can the information be taken off the Wall mounted PD by anyone?

A No, there is no information stored on the PD, it is stored on a server until the correct key is inserted and only then is the information securely transferred

Q Is it possible to access the system remotely?

A The CLIQ® environment works in an Amazon cloud hosted server environment ISO27001 Accredited, maintained and supported by Abloy allowing remote user access via a secure connection from anywhere in the world.

Q Where is the server?

A Amazon - Republic Of Ireland

Q Can I host this myself?

A Yes, but there would be additional costs

Q What if there is no internet connection on a particular site?

A A mobile PD is available which will work on the GSM network

Q How can I better control the issuing of keys?

A Through the use of Traka21 (key safe) keys can be automatically assigned to specific users. Keys are issued using either the staff members own security card or via pin number technology.

Q Is it possible to integrate the CLIQ® key with other systems?

A Unique RFID tag identifiers can be inserted into the key allowing it to be used with other MIFARE card based RFID systems

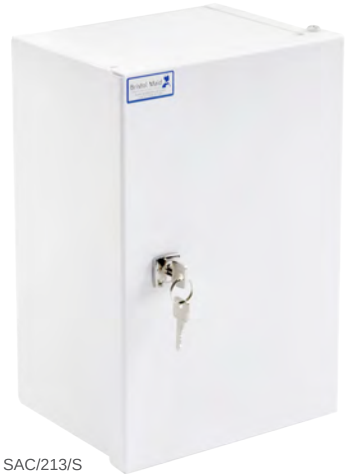
Buzzer Alarm

Features

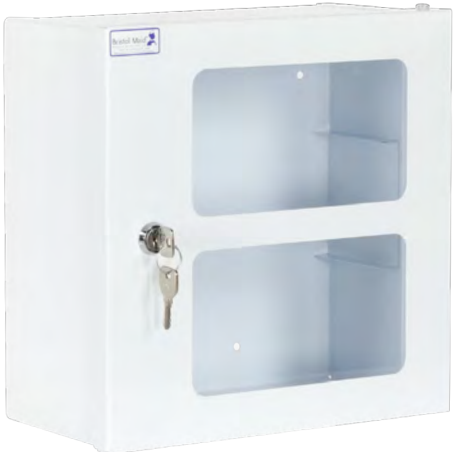
- Replacement circuit board with buzzer
- Compatible for PC, MS & CD cabinets fitted with a light unit
- Buzzer pulses on/off after the door has been open for 2 ½ minutes
- Factory fit only to cabinets fitted with lights

Item	Description
PCB	Buzzer Alarm

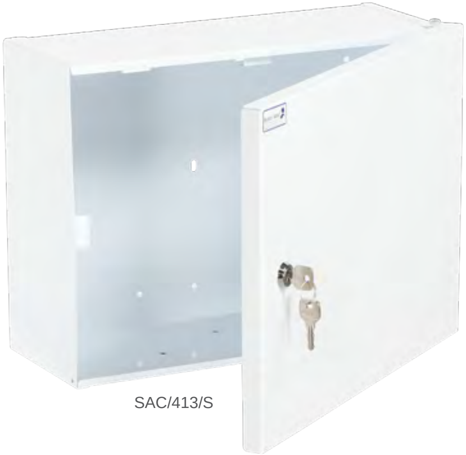
Patients / Residents Own Medication Cabinets - Self Administration



SAC/213/S



SAC/313/S/VP



SAC/413/S

Features

- Suitable for use with…
  - Drugs retained in original packs
  - Individual MDS packs with dividers & name cards
  - Nomad cassettes
  - Roll type blister packs
- Available as side or bottom hinged fitted with either a CAM or electronic push button lock
  - CAM - Supplied with two keys & uses 40 different master suites (for security we recommend that each ward/wing operates a different series, master keys available at additional cost)
  - Electronic Push Button - Battery operated
- Available with a solid door or with an inset perspex visibility panel
- 0.9mm (20 gauge) mild steel, spot welded construction
- Mounting holes in back/bottom (fixings not included)
- Range of mounting plates (optional)
- Shelves not included (optional)
- Supplied with a self-adhesive name card holder (length 60mm)

Standard Colours

- Paint - White

Electronic Push Button Lock

- Uses a 10-button keypad
- Easy programming & code change
- Four operating codes with differing levels of authority - Master / Sub-Master / User / Technician
- User codes are 4 digits
- Master & sub-master codes are 8 digits
- 15,000 openings on 2 x AAA cells (supplied)
- Low battery warning with failure override using 9v battery across LED's (+/-) & master code

Features

- Compliant with the Department of Health Green Book
- Recommendations in the General Pharmaceutical Council Standards
- Royal College of Veterinary Surgeons Guidelines
- Designed specifically for the safe storage of vaccines and pharmaceuticals
- Available as bench top, under bench, wall fitting or free-standing
- Temperature range +2°C to +8°C
- Second wandering temperature probe (can be placed anywhere within the refrigerator, ideal for pharmacists needing to comply with MHRA regulations)
- IntelliCold® touch screen controller
    - Automatic 24/7 temperature & fridge operation data recording (micro SD card required)
    - Min/max temperature control, display & recording
    - Displays temperature from both probes
    - High/low temperature alarm
    - Door open alarm
    - Mains failure alarm (requires batteries)
    - Alarm battery back-up
- Internal LED light
- Access port & remote alarm contacts
- Fan assisted cooling
- Off cycle auto defrost
- Low GWP environmentally friendly refrigerant
- Self-closing doors with door open alarm
- Available with either a CAM or digital push button lock
    - CAM - Supplied with two keys
    - Digital Push Button - Mains operated (uses a 4-digit pin)
- Adjustable shelves
- Micro SD card (optional)
- UKAS traceable calibration service (optional)
- Repeat alarm (optional)

Paper Roll Holder

E02

- Fitted to the head section
- Suitable for rolls max 510mm wide x 200mm diameter

Side Support Rails (Pair)

E03

- Swing down-side support rails
- Can be added to either one or both sides of the couch to provide additional safety for patients

Cushioned Side Support Rails (Pair)

E04 - E04/U

- Vinyl upholstered swing down-side support rails
- Can be added to either one or both sides of the couch to provide additional safety for patients
- Upgrade option for factory fitted side support rails (E04/U)

Breather Hole & Plug

E05

- Breather hole located in backrest section to improve patient comfort when in the prone position
- Supplied with a plug / insert

Battery Back Up

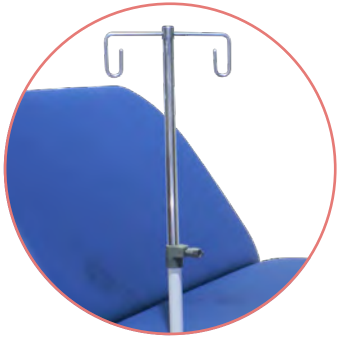
E06

- Allows the couch to be lowered in a controlled manner in the event of a power failure
- Provides enough charge for 1-3 cycles

Height Adjustable Armrests (Pair)

E07

- Height adjustable easy clean moulded polyurethane armrests



Infusion Pole

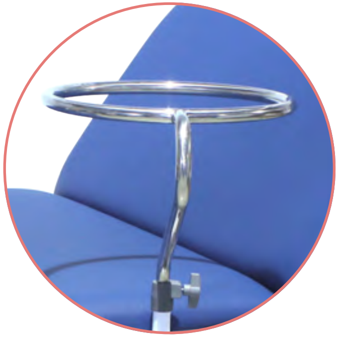
E08

- Height adjustable two hook infusion pole
- Cannot be fitted in conjunction with side support rails - E03, E04, E04/U

Bowl

E09

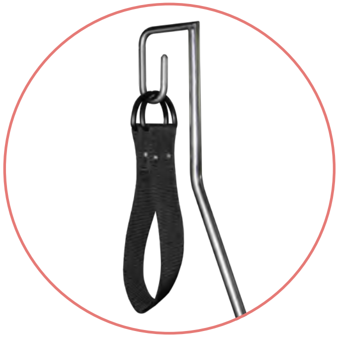
- 360mm diameter 304 Grade stainless steel bowl



Bowl Support

E10

- Support to hold 360mm diameter 304 Grade stainless steel bowl
- Order bowl separately



Lithotomy Stirrups (Pair)

E11

- Traditional lithotomy stirrups

Leg Supports (Pair)

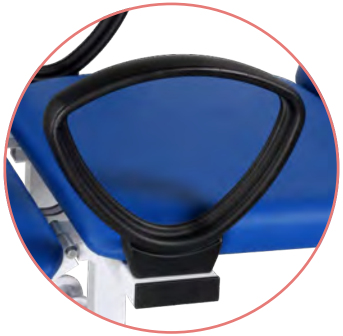
E12

- Fully adjustable easy clean moulded polyurethane leg supports

Phlebotomy Armrests (Pair)

E13

- Fully adjustable easy clean moulded polyurethane armrests



Side Support Loops (Pair)

E14

- Side support loops to assist mount / dismount & provide patient security

Phlebotomy Armrest (Single)

E15

- Fully adjustable easy clean moulded polyurethane armrest
- Compatible with EC5000

Battery Back Up

E18 (Bariatric Couch)

- Allows the couch to be lowered in a controlled manner in the event of a power failure
- Provides enough charge for 1-3 cycles

HTM71 Racking

Features

- Fully configurable freestanding modular racking for use with 600 x 400mm modular trays & baskets
- Available to suit 600 or 400mm insertions
  - Type A - 600mm insertion
  - Type B - 400mm insertion
- Trays & baskets supported on adjustable moulded plastic/glass fibre runners
- Runners can be positioned horizontal or angled (approx. 25 degrees - requires angle adaptor brackets)
- Integral stops on the runners allow trays/baskets to be accessible in two positions
  - Straight (approx. 5 degrees)
  - Angled (approx. 25 degrees)
- Runners offer pass through facility allowing access on either side
- Anodised extruded aluminium uprights & cross members
- Bolted construction using high quality moulded fixings provides rigidity & allows the system to be altered easily
- Available as either static or mobile units
  - Static - Adjustable feet allow levelling on uneven floors
  - Mobile - 50/80mm pressed steel castors
- Optional wall mounting brackets allow static units to be fixed securely to the wall, (when units are loaded over 100kg
- Supplied for self-assembly

Dimensions (w x d x h)

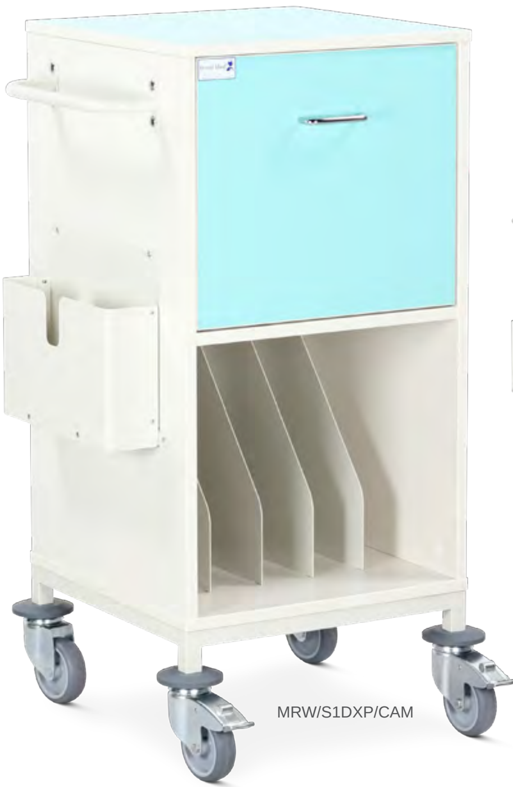
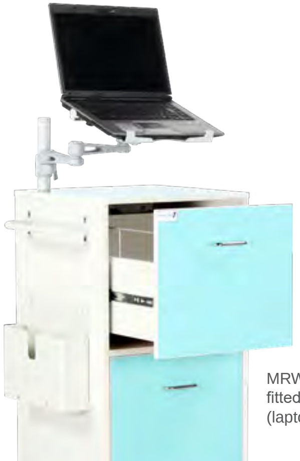
- User codes are 4 digits
- Master & sub-master codes are 8 digits
- 15,000 openings on 2 x AAA cells (supplied)
- Low battery warning with failure override using 9v battery across LED's (+/-) & master code

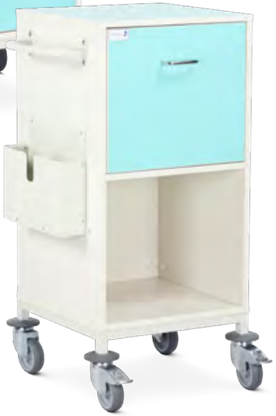
Medical Records Workstations - Locking



MRW/S1DXP/CAM



MRW/S2D/CAM
fitted with MRW/LHR/S
(laptop not included)



MRW/S1DOC/CAM

Features

- Suitable for use with our filing pockets (order separately)
- Provides 375mm filing capacity per drawer
- Available as single & double column units with…
  - One / two drawers & x-ray pigeon hole (5 / 10 sections)
  - One / two drawers & open cupboard
  - Two / four drawers
- Two locking options...
  - CAM Lock - Supplied with two keys
  - Electronic Push Button Lock - Programmable four-digit code
- Where relevant one lock secures all drawers
- Double drawer units fitted with an anti-tilt mechanism preventing two drawers from being opened at the same time
- Max load per drawer 16.0kg
- Push handle & document pocket fitted to end of trolley
- Polyurethane ring buffers offer protection to both the trolley & fabric of the building
- 100mm pressed steel castors, 2 off braking

Dimensions (w x d x h)

- Single Column - 604 x 538 x 1028mm
- Double Column - 1056 x 538 x 1034mm

Standard Colours

- Paint - Grey White
- Cabinet - Spearmint / Grey White

Electronic Push Button Lock

- Uses a 10-button keypad
- Easy programming & code change
- Four operating codes with differing levels of authority - Master / Sub-Master / User / Technician
- User codes are 4 digits

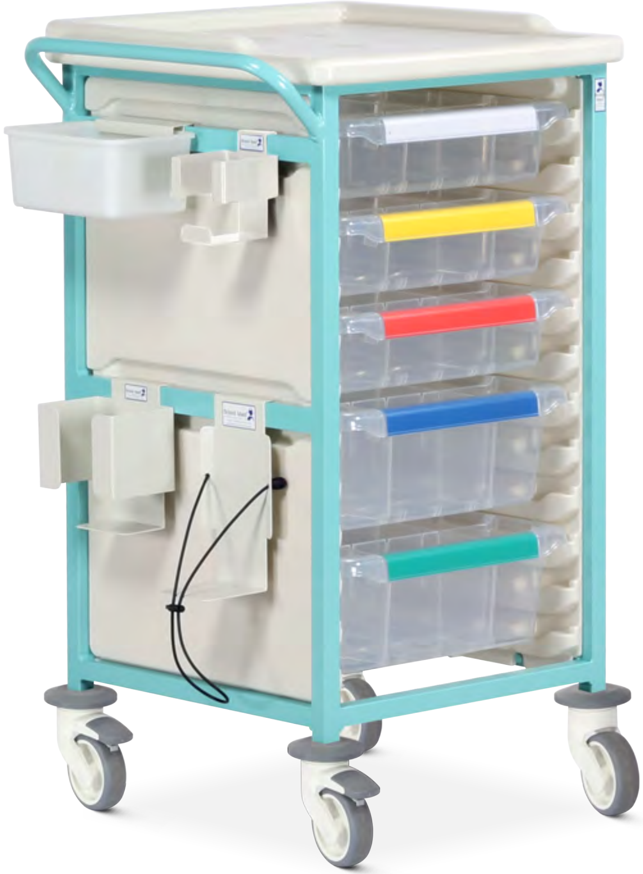
Phlebotomy

Caretray Trolley - Phlebotomy 260
Phlebotomy Chairs - Variable Height 262
Phlebotomy Chairs - Variable Height, Bariatric 263
Phlebotomy Chairs - Fixed Height 264



CTPHLEM1/10/3S2D

Caretray Trolley - Phlebotomy

Features

- Trolleys designed for use with Phlebotomy
- Quick & easy disassembly, assists thorough & deep cleaning
- Available in mild or stainless steel (requires no on-site assembly)
  - Fully welded mild steel frame, powder coated in a durable epoxy paint
  - Seamlessly welded, one piece 304 grade stainless steel frame
- Ergonomic push handle fitted to one side of the trolley ensures correct posture & keeps feet away from the frame, ideal for mobile phlebotomy or in cases where the trolley is wheeled for long periods of time
- Recyclable polypropylene one-piece top & side panels, smooth surfaces & radiused edges assists cleaning (compatible with steam cleaning)
  - Top Panel - Raised edges on three sides provide defined grab points to act as push handles, whilst an integral rim at the front contains spillages (max load 30kg)
  - Side Panels - Incorporate runners with positive stops preventing trays from being accidentally withdrawn (symmetrical design allows tray insertion from either side)
- Carerails fitted to either side support a wide range of accessories
- Available with a solid grade laminate door & back panel providing security for the contents of the trays
- Two locking options…
  - CAM Lock with Wing Handle - Supplied with two keys
  - Electronic Push Button Lock - Programmable four-digit code
- Trolley pre-configured with the following accessories…
  - Alcohol Gel Holder
  - Debris Bin & Bracket
  - Glove / Mask Box Holder, One Box
  - Sharps Box Holder
- Translucent, impact-resistant trays & dividers, smooth surfaces & radiused edges assists cleaning (compatible with steam cleaning / high temperature machine washing)
- Trays feature an integral handle with a plastic clip-on label cover (coloured labels supplied - white, blue, green, yellow & red)
- 100 / 150mm deep trays, can be subdivided in both length & width using removable dividers (max load 5kg)
- 2 x long & 2 x short dividers supplied with each tray
- Polyurethane ring buffers offer protection to both the trolley & fabric of the building, smooth surfaces assist cleaning
- 100mm polymer castors, 2 off braking

Caretray Trolley - Airways / Difficult Intubation

Features

- Trolleys suitable for use with Airways / Difficult Intubation
- Quick & easy disassembly, assists thorough & deep cleaning
- Fully welded mild steel frame, powder coated in a durable epoxy paint (requires no on-site assembly)
- Recyclable polypropylene one-piece top & side panels, smooth surfaces & radiused edges assists cleaning (compatible with steam cleaning)
  - Top Panel - Raised edges on three sides provide defined grab points to act as push handles, whilst an integral rim at the front contains spillages (max load 30kg)
  - Side Panels - Incorporate runners with positive stops preventing trays from being accidentally withdrawn (symmetrical design allows tray insertion from either side)
- Carerails fitted to either side support a wide range of accessories
- Solid grade laminate door & back panel providing security for the contents of the trays
- Door fitted with a security seal lock (security seal compatible)
- Trolley pre-configured with the following accessories…
  - Alcohol Gel Holder
  - Airway Tube Holder
  - Glove / Mask Box Holder, One Box
- Translucent, impact-resistant trays & dividers, smooth surfaces & radiused edges assists cleaning (compatible with steam cleaning / high temperature machine washing)
- Trays feature an integral handle with a plastic clip-on label cover (coloured labels supplied - white, blue, green, yellow & red)
- 100 / 150mm deep trays, can be subdivided in both length & width using removable dividers (max load 5kg)
- 2 x long & 2 x short dividers supplied with each tray
- Polyurethane ring buffers offer protection to both the trolley & fabric of the building, smooth surfaces assist cleaning
- 100mm polymer castors, 2 off braking

Dimensions (w x d x h)

- Overall Dimensions - 550 x 550 x 993mm

Reclining Armchair - Shapwick

Features

- Available as either manual or electric operation
  - Manual - Tilt in space recliner
  - Electric - Single tilt in space reclining only or single tilt in space reclining with rise function
- Manual chairs use a smooth easy to use push operation
- Electric chairs are fitted with a mains powered actuator (230V ~, 50/60Hz) fitted with a UK 3 pin plug & supplied with a handset
- Optional AccuPack system allows the chair to be used without being connected to an electrical supply (average of 100 cycles based on a 24hr charge)
- Upholstered with either
  - Flame retardant antimicrobial vinyl throughout
  - A combination of flame retardant antimicrobial vinyl & vapour permeable (VP) multiway stretch fabric. VP fabric applied to seat & back sections
- Easiform reflex foam provides comfort when sitting (fixed seat)
- Foam leg rest
- 4 x 50mm swivel braking castors
- Maximum capacity 127kg

Dimensions (w x d x h)

- Overall Dimensions - 737 x 902 x 1130mm
- Seat - 510 x 510mm at Height 460mm

Standard Colours

- Vinyl - Delft
- VP Fabric - Navy Blue

Options

- Seat Pressure Management - Coolform, Viscoform, Liquiform, Celliform
- Headrests - Head Pillow, Head Roll, Small Profile, Large Profile, Midline
- Full Length Arm Caps - Positioned over the arm rests
- AccuPack System - Allows mains free chair movements

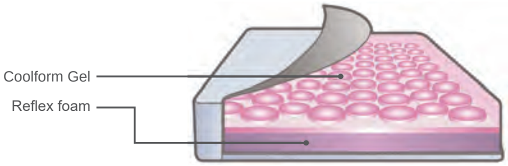
Seat Options For Pressure Management

Cushions are covered in multi-way stretch, vapour permeable fabric which is wipeable, removable, washable at 95°C, incontinence proof & breathable.

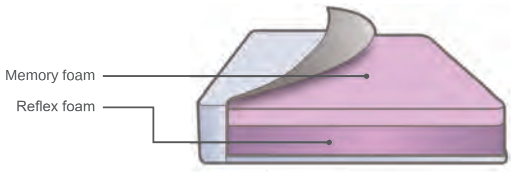


Coolform

Pressure Risk **MEDIUM** **HIGH**

For those sitting for long periods with specific comfort issues, such as a high risk of pressure sores. Uses the latest medical grade silicone gel technology allowing pressure to be evenly distributed.

The gel conforms to the shape of the body, equalises to body temperature, allows air to flow easily & is totally odourless & hypoallergenic.

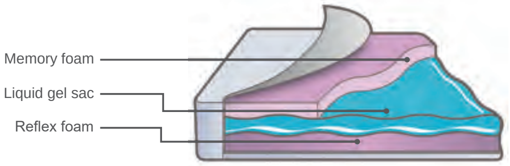


Viscoform

Pressure Risk **LOW MEDIUM**

For those who have good posture & mobility, but are seated for periods longer than one hour, require pressure relief & supported comfort.

High density foam provides support, whilst a top layer of memory foam allows submersion into the cushion, providing a large surface area to reduce pressure levels.

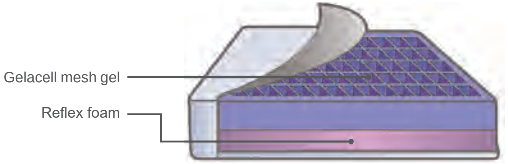


Liquiform

Pressure Risk **MEDIUM** **HIGH**

For those who have good posture & mobility, but are seated for long periods of time, require pressure relief & supported comfort. Excellent for people with little fatty tissue.

High density foam provides support, topped with layers of fluid liquid gel & memory foam to provide high levels of pressure relief. The liquid gel helps to dissipate heat, whilst constantly adapting to movement.

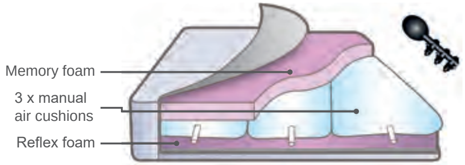


Celliform

Pressure Risk **MEDIUM** **HIGH**

For those sitting for long periods of time with specific comfort issues, such as a high risk of pressure sores & sheer forces.

Gelacell's unique grid design eliminates pressure points, contouring in response to the transfer of weight, evenly distributes pressure & reduces heat absorbtion, keeping the seat cooler & fresher.



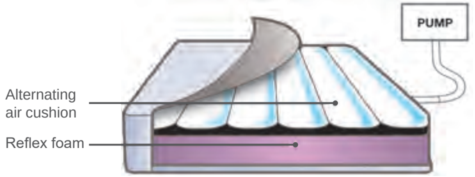
Airform

Pressure Risk **HIGH**

For those who have good posture, but are unable to alter their position easily
& require high level pressure care.

This cushion provides the benefits of an air cushion, however without the sensation of alternating changes in air pressure.

Suitable for users 40 - 127kg.



Dynaform

Pressure Risk **VERY HIGH**

For those at very high risk of developing pressure sores, or have a history of sores, where the priority is to prevent further pressure damage.

Dynaform is a dynamic alternating air cushion, which constantly changes air levels within its cells to recreate the effect of pressure relieving & prevent pressure build up.

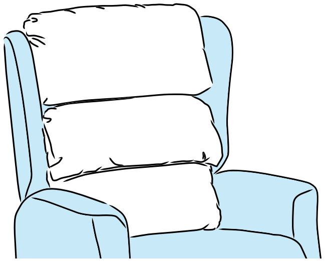
Air cell features
- 6 dynamic cells 10cm wide
- 3 cell cycle repeated every 9 minutes

Suitable for users 40 - 121kg.

Please note the Dynaform cushion does need an electric supply at all times to operate.

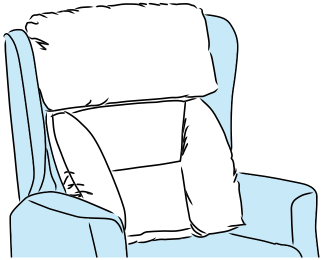
Pressure risk levels detailed are for guidance only. Each individual user has different posture, medical needs & health issues which contribute to the performance of any pressure cushion. If in doubt, please consult a GP or Health Care Professional.

Back Cushion Options



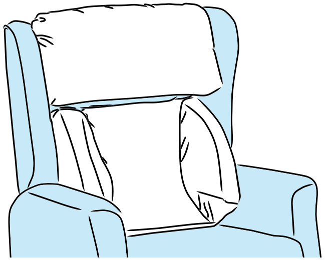
Waterfall Back Cushion

Individual waterfall cushions, fully adjustable to accommodate maximum postural support



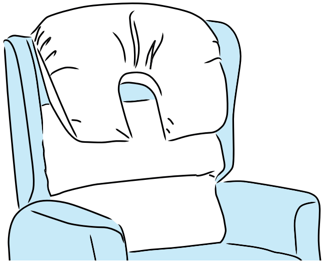
Comfort Lateral Back Cushion

Soft fibre filled removable lateral cushion for lower back & side lumber support, without feeling restricted



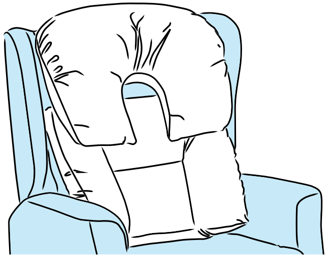
Support Lateral Back Cushion

A foam filled back providing firmer lateral support with a soft fibre filled headrest



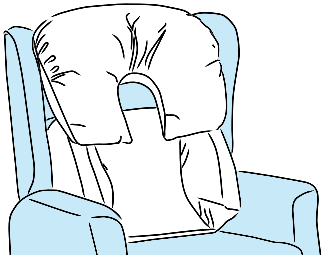
Large Profile Headrest with Waterfall Back

For those with limited head control & requiring a soft adjustable lumbar support



Large Profile Headrest with Comfort Lateral Back

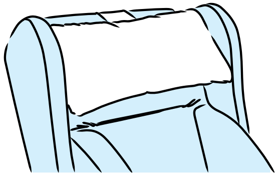
For those with limited head control & requiring soft lateral support without feeling restricted



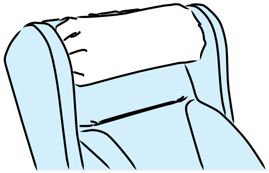
Large profile headrest with Support Lateral Back

For those with limited head control, requiring firm foam lateral lumbar & midline support

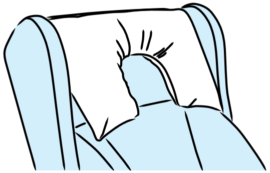
Headrest Options



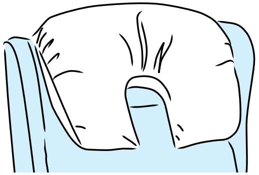
Head Pillow



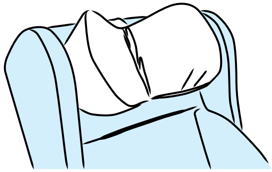
Head Roll



Small Profile Headrest



Large Profile Headrest



Midline Headrest

Table with Wireless Charging

360-degree rotation & angle adjustable table with a wipe clean surface. Supports QI wireless charging & fitted with a USB socket. Removable magnetic bar provides support & ensures correct positioning on the wireless receiver coil, wipe clean surface (w 345 x h 245mm)

Item	Description	Weight
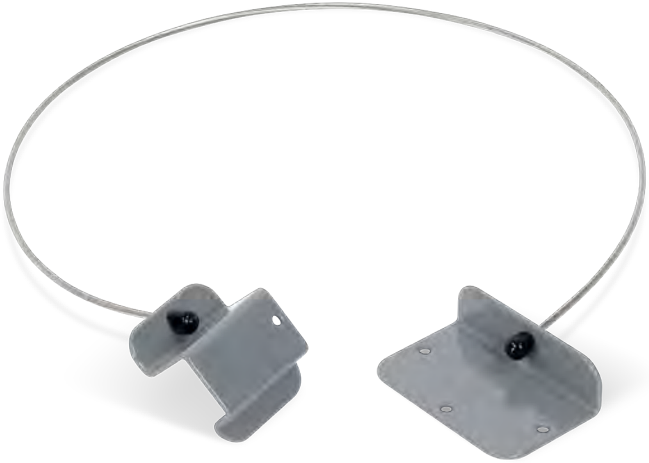
SEP/USBBMP	Universal Sharps Box Bracket Mounting Plate	0.2kg

Security Clamp

Features

- Allows the trolley to be secured to the 'fabric' of the building
- Requires no additional keys, utilises the trolleys own locking system
- One end is secured to the wall, the 'hook shaped' end is trapped by the door of the trolley when closed and locked
- Recommended wall fitting height 1000mm



Important Note - Security Clamps

It is a UK requirement that when the trolley is not in use it should be secured to the 'fabric of the building'. Not only does this prevent casual theft, i.e. trolleys being pushed to an isolated area and broken into, but also encourages good nursing practice, giving the trolley a 'permanent home'.

'Safe & Secure Handling of Medicines - Royal Pharmaceutical Society, GB- March 2005'

Item	Description	Cable Length	Weight
MT/1/6F	Security Clamp	950mm	0.8kg

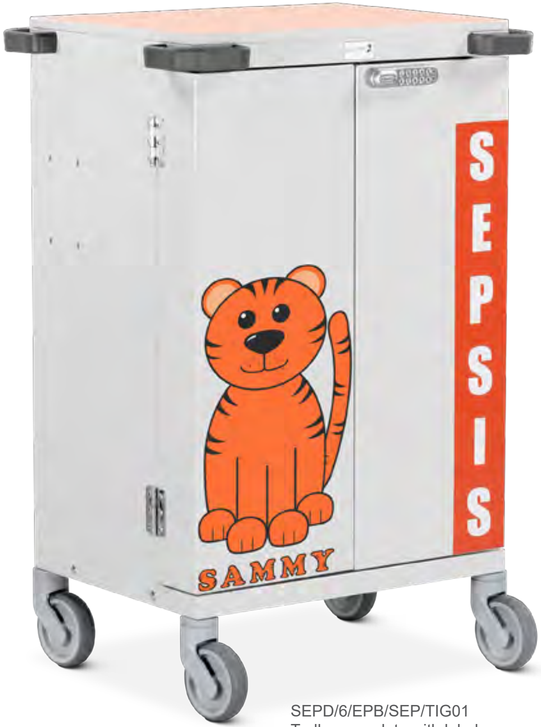
SEP/L	Label

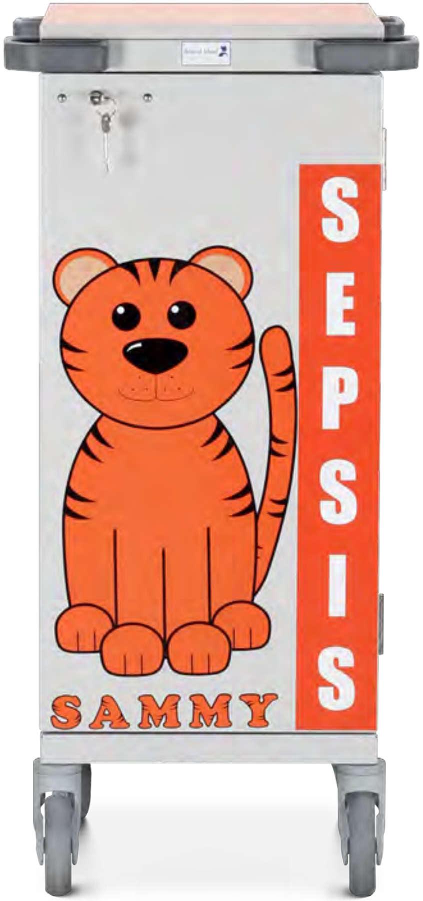
Label - Sepsis Tiger

Features

- Sammy the sepsis tiger label developed for use on Paediatric trolleys
- Compatible with both single & double door trolleys



SEPD/6/EPB/SEP/TIG01
Trolley complete with label



SEPS/6/HSB/SEP/TIG01
Trolley complete with label

Item	Description
SEP/TIG01	Label - Sammy Sepsis Tiger

Caretray Trolley - Sepsis

Features

- Trolleys designed for use in the treatment of Sepsis
- Supports delivery of ‘The Sepsis Six’ with clearly defined locations for equipment used in each of the stages
- Quick & easy disassembly, assists thorough & deep cleaning
- Fully welded mild steel frame, powder coated in a durable epoxy paint (requires no on-site assembly)
- Recyclable polypropylene one-piece top & side panels, smooth surfaces & radiused edges assists cleaning (compatible with steam cleaning)
  - Top Panel - Raised edges on three sides provide defined grab points to act as push handles, whilst an integral rim at the front contains spillages (max load 30kg)
  - Side Panels - Incorporate runners with positive stops preventing trays from being accidentally withdrawn
- Carerails fitted to either side support a wide range of accessories
- Solid grade laminate door & back panel providing security for the contents of the trays
- Two locking options…
  - High Security Bolt Lock - Supplied with two keys
  - Electronic Push Button Lock - Programable four-digit code
- Trolley pre-configured with the following accessories…
  - Waste Bin & Bracket, 8 Litre
  - Sharps Box Holder
  - Labels, Sepsis Six
- Translucent, impact-resistant trays & dividers, smooth surfaces & radiused edges assists cleaning (compatible with steam cleaning / high temperature machine washing)
- Trays feature an integral handle with a plastic clip-on label cover (sepsis six labels supplied - oxygen / blood cultures / intravenous antibiotics / intravenous fluid / haemoglobin & lactates / urine measurement)
- 100 / 150mm deep trays, can be subdivided in both length & width using removable dividers (max load 5kg)
- 2 x long & 2 x short dividers supplied with each tray
- Polyurethane ring buffers offer protection to both the trolley & fabric of the building, smooth surfaces assist cleaning
- 100mm polymer castors, 2 off braking
- When not in use, trolleys storing medicines should be secured to the wall using a Security Clamp (see locking & security accessories - page 384)

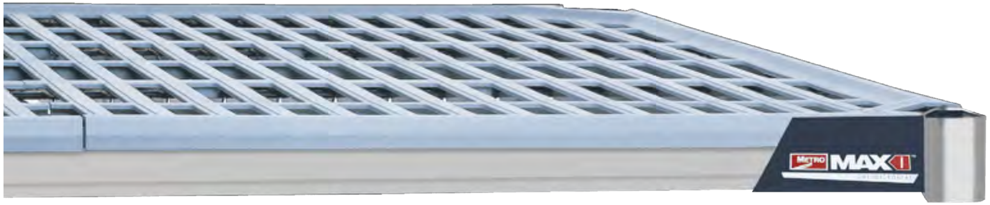
MetroMax I® Full Polymer System with Lifetime Warranty against corrosion



Microban®
antimicrobial product protection

Microban® antimicrobial product protection helps keep shelves “cleaner between cleanings” by inhibiting the growth of mold, mildew, fungus and bacteria that cause odors and stains on the shelf surface.

Olympic® The Economic Wire Storage System

MetroMax Q® Polymer / Epoxy Coated System with 15 Year Warranty against corrosion

Polymer Racking - MetroMax I®

8MX556SG

85MX556SG

Features

- Corrosion proof polymer shelving & racking system
- Polymer shelves with stainless steel corners & a patented no tools assembly, adjustable in 25mm increments
- All polymer posts
- Removable easy to clean polymer shelf mats (will fit most dishwashers) available as…
  - Grid Shelves - Open grid design allowing for the free circulation of air, improved visibility & light penetration
  - Solid Shelves - Solid design offering a tear free surface, ideal for the storage of sterilised DIN/ISO trays within theatres
- Microban® product protection inhibits growth of bacteria & aids infection control
- Available as stationary or mobile units
  - Stationary - Fitted with adjustable feet to allow levelling on uneven floors
  - Mobile - Fitted with 125mm swivel / braking castors
- Rack / unit capacity…
  - Stationary - 907kg
  - Mobile - 339kg
- Optional label holders, shelf dividers & ledges
- Lifetime anti-corrosion warranty
- Supplied for self-assembly

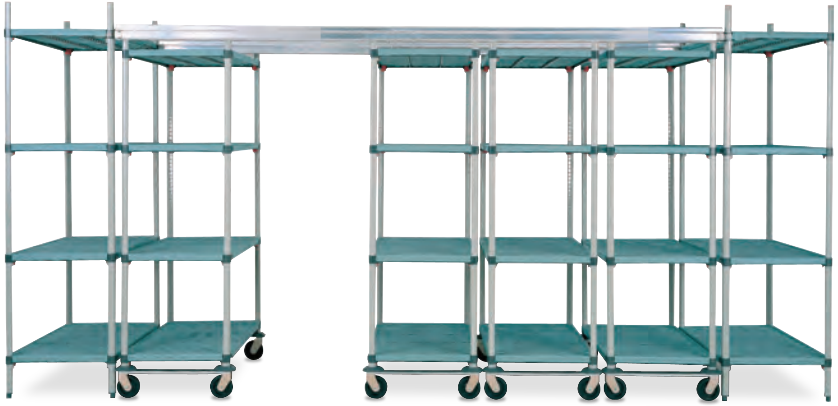
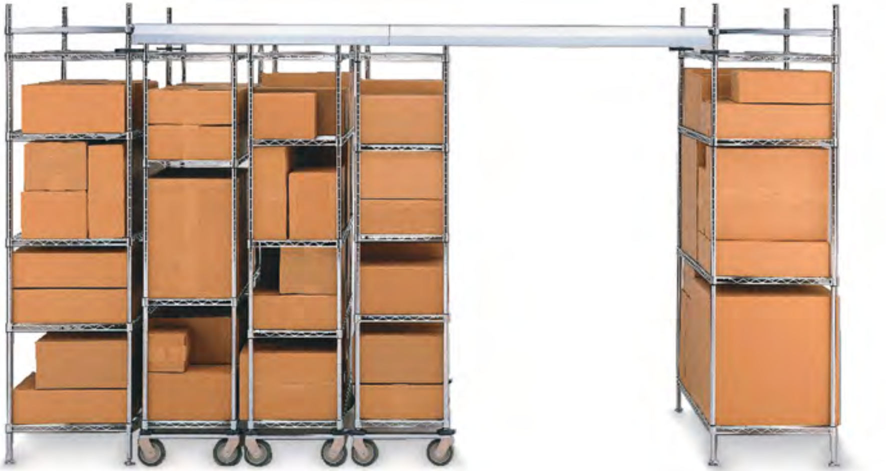
High Density Storage - Top-Track®

Features

- Increases the storage capacity of a given area by up to 50%
- Maximises all available space
- Can eliminate the need to expand a given area through the use of optimised storage
- Creates moveable aisles
- Eliminates hard to reach or 'dead' spaces
- The guide track is positioned above the shelving system
- Aluminium overhead track system acts as a guide for mobile units
- Floors are easy to clean
- Carts & trolleys can easily be easily manoeuvred into & out of the active aisle
- Mobile units are designed to accommodate medium-duty applications
- The maximum weight capacity of a Top-Track® mobile unit is 410kg





Overhead Guide Track

High Density Storage - qwikTRAK®

Features

- Increases the storage capacity of a given area by up to 50%
- Maximises all available space
- Can eliminate the need to expand a given area through the use of optimised storage
- Creates moveable aisles
- Eliminates hard to reach or 'dead' spaces
- The guide track is positioned below the shelving system, & protects the floor from wear & tear (does not need to be mounted to the floor)
- Compensates for uneven floor surfaces
- Track acts as a guide for mobile units
- Mobile units are designed to accommodate heavy-duty applications
- Allows for double deep configurations, where two systems are joined together for even greater storage capacity
- The maximum weight capacity of a qwikTRAK® mobile unit is 970kg

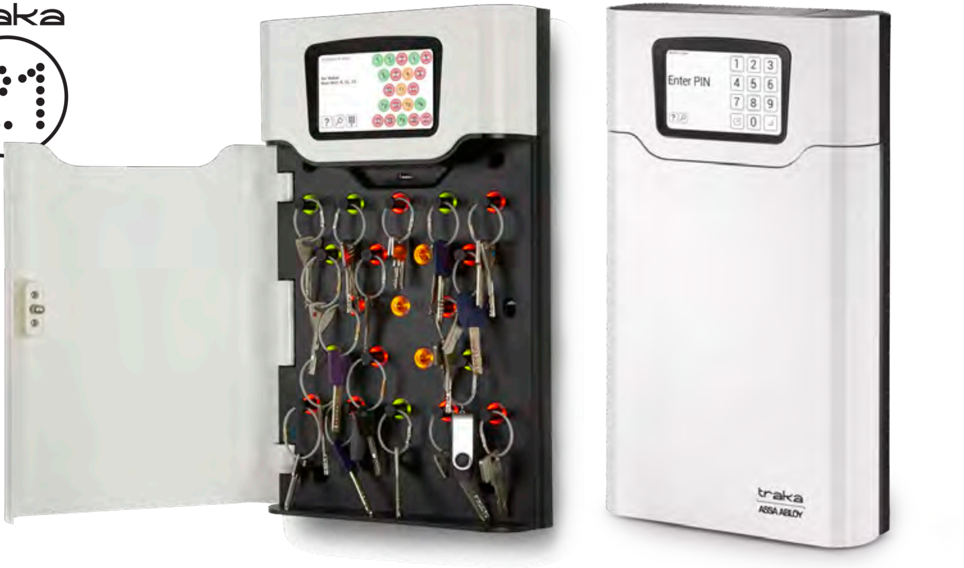
Storage Cabinets - Keys, Traka21



How does it work?

1

Access
User enters unique PIN code to gain access to the cabinet

2

Key Removal
Keys & keysets are individually locked within the cabinet. Green LED's indicate those keys which the user can access. The user cannot remove keys highlighted by the Red LED's which continue to remain locked in place

3

Key Replacement
An amber light indicates the return position for the key

Item	Description	Weight
SKC21/TRAKA	Key Cabinet - TRAKA21	4.0kg

Features

- User, key & access rights administration
- Screen based audit trail & reporting capability or export via USB port
- 21 robust, long-life iFobs with security seals
- 21 locking receptors with LEDs
- Robust & compact aluminium & ABS housing with no exposed hinges or obvious access points
- Manual override & door release functions in case of emergency
- Audible alarms

Operation

- Stand-alone 'Plug & Play' solution with advanced RFID technology
- Capacity for up to 21 keys
- Touchscreen interface
- PIN access to designated keys or keysets which are individually locked in place
- Keys are securely attached using special security seals
- Simple to configure through setup wizard
- No requirement for network connection or PC
- Concealed robust fixing points allow secure wall fixing
- Mains operated (optional battery back-up)

Dimensions (w x d x h)

- 246 x 95 x 427mm

Standard Colours

- Aluminium & ABS - White

Options

- SKR/25 - Security Key Rings (x 25)
- SKR/100 - Security Key Rings (x 100)
- SKB/BAT - Battery Back-Up

Traka21 iFob
Once attached to an iFob with a robust security seal, individual keys or keysets are assigned a specific receptor within the Traka cabinet & locked in place until released by an authorised user

Storage Cabinets - Keys

Features

- Cabinets for the control & tracking of keys
- Available with either a CAM or electronic push button lock
  - CAM - Supplied with two keys
  - Electronic Push Button - Battery operated
- Adjustable hook bars accommodate different key lengths
- Removable control index for out of hours peace of mind
- Colour coded hook bars & tags ensure quick identification, (both numbered)
- Provided with security seals & loops to secure keys that require evidence of tampering or removal

Standard Colours

- Paint - Grey

Electronic Push Button Lock

- Uses a 10 button keypad and a # button. The # button is hidden beneath the handle when in the locked position
- Easy programming & code change
- Four operating codes with differing levels of authority
  - Master code
  - Sub-master code
  - User code
  - Technician code
- User codes are 4 digits
- Master & sub-master codes are 8 digits
- 15,000 openings on 2 x AAA cells (supplied)
- Low battery warning with failure override using 9v battery across LED's (+/-) & master code

Standard Colours

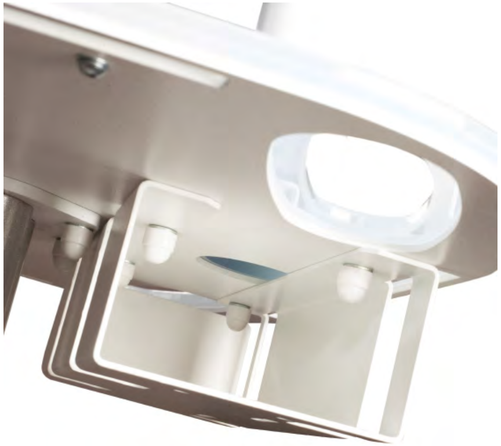
- White



Item	Description	Weight
5RC/PSH	Power Supply Unit Holder	0.6kg

Side Din Rail Kit

Features

- Aluminium DIN rail
- Provides a rail measuring 10 x 25mm to hang / position accessories
- Mounts to the right / left side of the unit

Standard Colours

- Aluminium / White

Dimensions (w x d x h)

- 300 x 10 x 25mm

Item	Description	Weight
5RC/DRK	Side Din Rail Kit	0.6kg

Glove / Mask Box Holder, One Box

Features

- Accommodates glove & mask boxes up to 150mm in width
- Box presented in a portrait orientation
- Fitted with a 15mm hook

Standard Colours

- Paint - Grey White

Dimensions (w x d x h)

- 143 x 122 x 177mm

Item	Description	Weight
GMBH/15	Glove / Mask Box Holder, One Box	0.6kg

Alcohol Gel Holder

Features

- Accepts bottles with 90 x 90mm square base
- Fitted with a 15mm hook

Standard Colours

- Paint - Grey White

Dimensions (w x d x h)

- 95 x 110 x 115mm

Item	Description	Weight
CT/ALC	Alcohol Gel Holder	0.3kg

Sharps Box Holder

Features

- Accepts sharps boxes up to seven litres capacity
- Sharps box secured using a rubber band fitted with a toggle
- Fitted with a 15mm hook

Standard Colours

- Paint - Grey White

Dimensions (w x d x h)

- 127 x 118 x 230mm

Item	Description	Weight
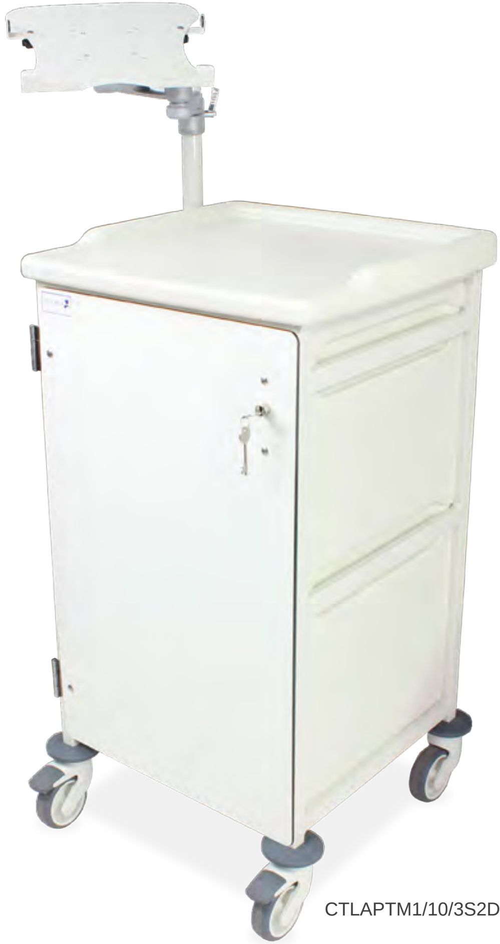
SBH/15	Sharps Box Holder	0.5kg



CTLAPTM1/10/3S2D/HSB

Item	Description	Weight
High Security Bolt Lock		
CTLAPTM1/10/3S2D/HSB	3 x 100mm, 2 x 150mm Trays, High Security Bolt Lock	39.3kg
CTLAPTM1/10/4S1D/HSB	4 x 100mm, 1 x 150mm Trays, High Security Bolt Lock	39.0kg
CTLAPTM1/10/6S/HSB	6 x 100mm Trays, High Security Bolt Lock	40.1kg

Caretray Trolley - Laptop

Features

- Trolleys designed for use with laptops
- Quick & easy disassembly, assists thorough & deep cleaning
- Fully welded mild steel frame, powder coated in a durable epoxy paint (requires no on-site assembly)
- Recyclable polypropylene one-piece top & side panels, smooth surfaces & radiused edges assists cleaning (compatible with steam cleaning)
  - Top Panel - Raised edges on three sides provide defined grab points to act as push handles, whilst an integral rim at the front contains spillages (max load 30kg)
  - Side Panels - Incorporate runners with positive stops preventing trays from being accidentally withdrawn (symmetrical design allows tray insertion from either side)
- Carerails fitted to either side support a wide range of accessories
- Solid grade laminate door & back panel providing security for the contents of the trays
- Two locking options…
  - High Security Bolt Lock - Supplied with two keys
  - Electronic Push Button Lock - Programable four-digit code
- Trolley pre-configured with the following accessories…
  - Laptop Holder, Removable, Swing Arm
- Translucent, impact-resistant trays & dividers, smooth surfaces & radiused edges assists cleaning (compatible with steam cleaning / high temperature machine washing)
- Trays feature an integral handle with a plastic clip-on label cover (coloured labels supplied - white, blue, green, yellow & red)
- 100 / 150mm deep trays, can be subdivided in both length & width using removable dividers (max load 5kg)
- 2 x long & 2 x short dividers supplied with each tray
- Polyurethane ring buffers offer protection to both the trolley & fabric of the building, smooth surfaces assist cleaning
- 100mm polymer castors, 2 off braking
- When not in use, trolleys storing medicines should be secured to the wall using a Security Clamp (see locking & security accessories)

Dimensions (w x d x h)

- Overall Dimensions - 550 x 550 x 993mm
- Plastic Top - 455 x 455 (internal) at height 968mm
- Trays
  - Shallow Tray - 355 x 405 x 100mm (internal)
  - Deep Tray - 355 x 405 x 150mm (internal)

Standard Colours

- Paint - Grey White

Options / Accessories

PAINT & LAMINATE

Paint & Laminate

Painted surfaces should be cleaned using a soft damp cloth & polished dry. Do not use abrasive cloth. Persistent exposure to wet or humid conditions could result in rust marks, or cause the paint to lift. Concentrated bleach, synthetic detergents, solvents, wax polishes or aerosol sprays should not be used.

Care & Cleaning

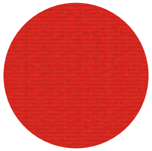
Vinyl's are resistant to most mild acids, alkalis, drinks & household stains. Clean with a damp, soapy cloth & rinse well with clean water. Dry the surface thoroughly. A soft brush with soapy water may be used to remove stubborn stains. Ensure surfaces are then rinsed & dried. Do not use solvents, bleaches*, abrasives, synthetic detergents, wax polishes or aerosol sprays. Disinfectants may be used in dilution as specified by their manufacturers.

* Chlorine Releasing Agents: Levels of 1-10,000 parts per million should pose no problems as long as the material does not endure long soakings at the higher concentrations. Rinse well with clean water. These include Haz-Tabs & other disinfectants commonly used in hospital infection control programmes. Surfaces are NaDCC compatible.

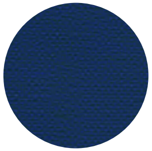
FABRIC & PLASTIC

Fabric - Camira Advantage

Vacuum regularly. Wipe clean with a damp cloth or shampoo using proprietary upholstery shampoo.

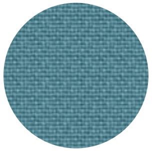


FRD - Red

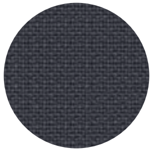


FCT - Cobalt

FAC - Aztec



FKR - Kingfisher



FGE - Granite

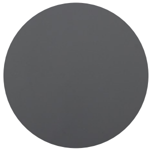
FBK - Black

Fabric - VP Multi-Way Stretch

Wipe with mild detergent. Wash or dry clean using detergent up to 75°C. For disinfection use sodium hypo-chlorite at no more than 1,000 parts per million of active chlorine. Do not use biological or phenolic-based cleaners. Wash & dry completely. Some surface wrinkling may occur.

VPNB - Navy Blue

VPBE - Beige



VPGY - Grey

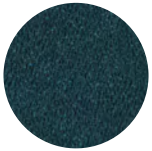
VPBL - Black

VPBU - BURGANDY

VPGR - Green

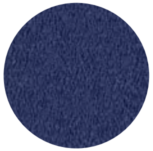
FABRIC - Camira 24/7+

Vacuum regularly. Professionally dry clean or wipe clean with a damp cloth.

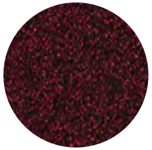


FYR09 - Zone

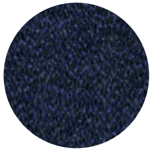
FYR06 - Indiction



FYR02 - Vernal



FYR15 - Annual

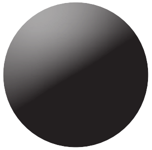


FYR03 - Equinox

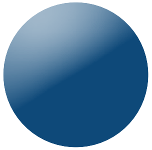
FYR21 - While

Plastic Seat Shells

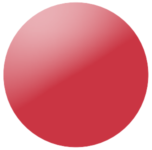
Plastic should be cleaned using a soft damp cloth & polished dry. Do not use abrasive cloth. Concentrated bleach, synthetic detergents, solvents, wax polishes or aerosol sprays should not be used.



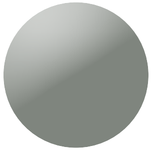
SBK - Black



SBE - Blue

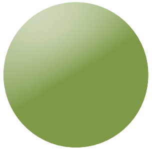


SRD - Red

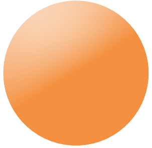


SGY - Grey

SWH - White



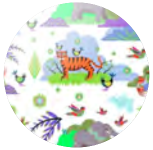
SOE - Olive



SMO - Mango

Panaz Patternistas for Childern

Vacuum regularly. Wipe clean with a damp cloth. Can be cleaned with water based proprietary cleaners & 5% sodium chlorite bleach solution, Haz-Tabs or Chlor-Clean.



SAVL - Savanna Lavender

TECHNICAL INFORMATION

Dimensions & Weight

- Dimensions are stated in millimetres (width x depth x height)
- Weights are stated in kilograms
- Please ensure you are aware of the item size & weight prior to ordering

Castors

- All castors are fitted with non-marking tyres (with exception of some anti-static versions)
- Anti-static castors can be identified by either a yellow mark on the edge of the tyre, or where twin wheel castors are used, a different colouration to the tyre (the result of the addition of a conductive material)
- Castors & wheel bearings do not require specific maintenance other than regular cleaning
- The use of oil will breakdown the grease applied to the bearings, reducing the life of the castor
- We recommend that fittings are checked regularly & re-tightened as required
- Where anti-static castors are fitted, we recommend that the tyre is periodically cleaned to remove any dirt that may have built up. This will ensure a good contact between the tyre & the floor

Locks & Keys

- Locks should operate smoothly. If they do not please arrange urgent attention, & where necessary, obtain a replacement
- Locks require minimal maintenance & should only be lubricated using a dry lubricant such as graphite which can be purchased from most locksmiths (NEVER USE OIL)
- When ordering replacement locks or keys, please ensure that the product code & any letters / numbers from the key & lock are available

Paint

- We only use lead free epoxy polyester powder paint
- Where possible colours are applied in special booths to allow for overspray to be recycled
- Alternative colours are available at additional cost

Stainless Steel

- We use 304 & 430 grade stainless steel
  - Grade 304 is non-magnetic & used on products which are not painted
  - Grade 430 is magnetic & will be subsequently painted
- Please note that the term ‘stainless’ is not entirely accurate, as certain chemicals can ‘eat’ into the surface. In particular, ‘iodine’ which can badly corrode / stain, & as a result should not be used as a cleaning agent. Stainless steel products should always be dried after cleaning to reduce staining

Wood, Melamine & Laminate

- We only use FSC accredited materials. This provides assurances that the material is produced from well-managed forests & / or recycled materials
- We use a combination of melamine faced MDF / chipboard & high pressure laminates bonded MDF of chipboard substrates
- Edges are protected with 2mm ABS, T-Barb edging or sealed with varnish
- Both melamine & laminate panels offer some resistance to water penetration under normal usage
- We only use water based adhesives & varnishes

Upholstered Panels & Fabrics

- Vinyl upholstered panels are manufactured from ‘Flame Retardant’ materials, independently tested to BS 5852: 2006 Ignition Source 5, BS EN 1021-1: 2006, BS EN 1021-2: 2006 & BS 7176: 2007 Medium Hazard. Standard vinyl colours also contain an anti-microbial compound within its construction, which constantly migrates to the surface to replenish any material which is removed by cleaning or general usage
- Fabric upholstered panels are manufactured from ‘Flame Retardant’ materials, independently tested to BS 5852: 2006 Ignition Source 5, BS EN 1021-1:2006, BS EN 1021-2:2006 & BS 7176: 2007 Low Hazard
- Curtain screens are manufactured from ‘Flame Retardant’ materials, independently tested to BS 5438: Part 2

TECHNICAL INFORMATION

Electric Columns & Actuators

- Electric columns & actuators comply with EMC Directive 2014/30/EU, Low Voltage Directive 2014/35/EU & RoHS2 Directive 2011/65/EU

Medical Devices

Where applicable, Hospital Metalcraft product is marked with the CE symbol to demonstrate compliance with the essential requirements of any European Directives (& transposing regulations) that may apply & for which a Declaration of Conformity is held. Hospital Metalcraft is registered with the MHRA (Medicines & Healthcare Regulatory Authority) in connection with product classified as ‘Class 1 Medical Devices’ for purposes of the Medical Devices Directive (93/42/EEC) with the registration number CA001358.

WEEE Regulations

Hospital Metalcraft meets its obligations as a business to business producer of Electrical and Electronic Equipment (EEE) through:

- Membership of the Veolia Environmental Services WEEE, (Waste Electrical & Electronic Equipment), Producer Compliance Scheme (Registration No. WEE/KE0677RX)
- Marking EEE placed on the market by Hospital Metalcraft with the mandatory crossed out wheeled bin symbol & Bristol Maid™ logo
- Making information available, (for EEE placed on the market after April 2007), to assist those engaged in treatment, recovery & recycling activities
- Arranging for the collection, treatment, recovery & environmentally sound disposal of obligated WEEE

Preventative Maintenance, Spares & Service Support

Bristol Maid™ products are designed & manufactured to cater for the demands of the healthcare environment, with the majority (under normal conditions) providing many years of trouble free service. Where annual maintenance or periodic inspections are required, we can offer comprehensive planned preventative maintenance through either a scheduled service contract or call out by our own trained Engineers. For your peace of mind & continued product reliability, please contact our customer service team for details on the following services.

- Preventative maintenance contracts & packages
- Supply of spare parts
- Site audit & equipment recommendations

Cleaning Guidance & Instructions

The maintenance of high standards of cleanliness on all surfaces & equipment is a crucial factor in the prevention & control of infection. Whilst all dust, dirt & moisture can harbour infection, the key risks are associated with contamination arising from contact with blood, body fluids, mucous membranes & damaged skin. In all cases surfaces, must be thoroughly cleaned & disinfected in order to destroy any pathogenic micro-organisms.

Bristol Maid products have been designed for use in demanding environments. Guidance & instructions can be found at - www.bristolmaid.com/cleaning-instructions

25
Years

Caretray Trolley™ Range

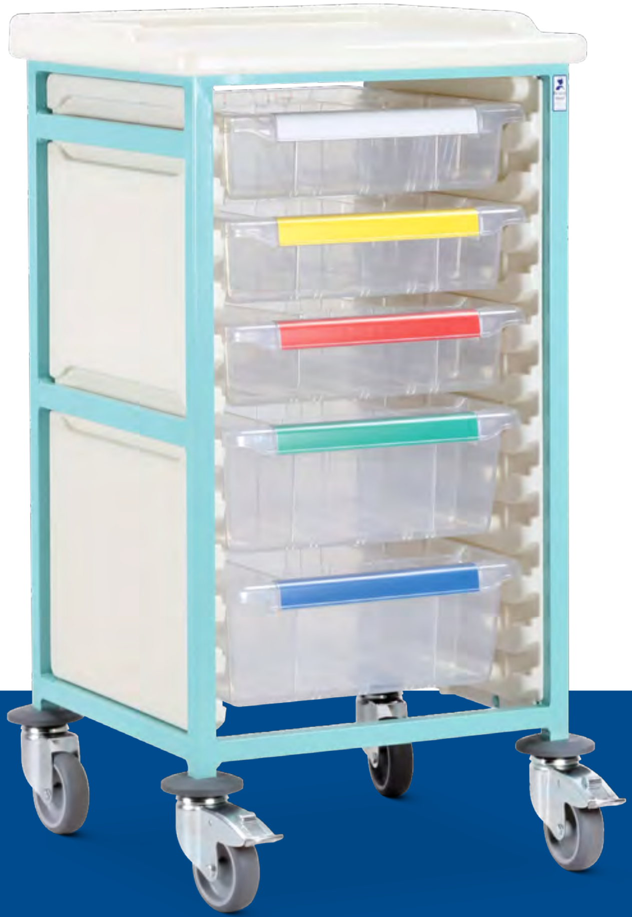
The Caretray Trolley was developed specifically to meet the needs of the Healthcare Professional across a wide variety of disciplines including Minor Treatment, A&E, Theatre, Phlebotomy, ITU, and Outpatients to name but a few. It has become a flexible, dependable partner, a trusted workhorse in hospitals throughout the UK and Overseas.

In its 25th year of production, the Caretray Trolley offers excellent value for money & is available as either pre-configured or can be specified to meet your specific requirements…

Pre-Configured Trolleys
- Chart Trolleys
- Dispensing Trolleys
- Phlebotomy Trolleys
- Procedure Trolleys
- Resuscitation Trolleys
- Sepsis Trolleys
- Laptop Trolleys

Configure Your Own Trolley (Mild & Stainless Steel)
- Low Level
- Standard Level
- High Level

Configure Your Own Rack (Mild & Stainless Steel)
- Mobile
- Static



Bristol Maid™
Hospital Metalcraft™ Limited

Manufacturing Medical Furniture & Equipment Since 1953

With over 65 years of experience, Bristol Maid is a leading manufacturer and supplier of medical furniture & equipment.

From design and manufacture to supply and installation, Bristol Maid has a reputation for providing high product quality, excellent customer service and value for money.

We take pride in working in close partnership with our customers applying innovative design and technology to deliver effective solutions for today while anticipating the needs of tomorrow.
