

Assembly Instructions for the *e-sphyg³*

Mobile Mount Assembly

1. With base on its side connect upright outer pole to base using the long 6 mm hex screw and washer. Tighten with the large hex key provided. Tighten hardware as securely as possible. (To prevent loosening, periodically check that hardware remains securely tightened.) Reposition base upright. (Figure 1)

2. Slide stainless steel inner pole inside outer pole with open end up. Make sure shock absorbing spring is inside the outer pole and tighten. (Figure 2)

3. Attach metal basket to platform using two 3 mm hex screws. Tighten with small hex key provided. (Figure 3)

4. Attach the e-sphyg³ to the mounting bracket using short 2 mm hex screws and washers as shown. Tighten with small hex key. (Figure 4)

5. Place assembly consisting of the e-sphyg³ and mounting bracket into platform socket, making sure the post goes completely inside collar. Insert short 6 mm hex screw and washer as shown. Tighten with large hex key. (Figure 5)

6. Place assembly consisting of the e-sphyg³, cuff storage basket and platform on top of stainless steel inner pole, making sure the pole goes completely inside collar. Use tightening device and small hex key as shown. (Figure 6)

Assembly Instructions for the *e-sphyg³*TM

Wall Mount Assembly

1. Attach e-sphyg³ to wall bracket by aligning the holes on the back of the unit with the four holes on the mounting bracket as shown. Insert the four hex mounting screws with washers through the back of the mounting bracket into the e-sphyg³ and tighten. (Figure 1)

Figure 1

Figure 2

2. Attach wall bracket to wall. For optimum viewing, it is suggested that you measure 60" from the floor to the top of the wall mounting bracket (or adjust as needed). Once positioned to desired height, mark screw positions on the wall making sure bracket is level. Screw three supplied screws firmly into a stud, or use the three supplied anchors to secure to the wall. (Figure 2)

3. After the unit and wall bracket have been attached to the wall, position the basket onto the bracket and screw the two basket screws through the basket openings and tighten. (Figure 3)
