

Folding screens

RFW

wall-mounted

Folding screen wall-mounted

Infill panels: non-see-through but translucent

Non-see-through 360° hinges. Tearproof

10 years warranty on hinge system

RFW wall mounted in park position

Flexibly usable as a screen or partition in the hospital and care sector, the robust and impact-resistant folding screen is positioned in seconds and parked back against the wall after use. The number of leaves can be extended at a later date. Non-see-through but translucent leaf infill material with high-quality aluminium profile creates a pleasant, light atmosphere.

Modern leaf designs, available in different colours, give the folding screen an individual touch.

Available in 10 colours and 4 design options

RFW in parking position

Mobile folding screen: the classic example of adaptability and versatility. Mobile folding screens, which are used here today and there tomorrow, offer the greatest possible spatial flexibility in everyday care and treatment work: in hospitals and care of the aged, in doctors' surgeries as well as in clinical rooms. At the same time you guarantee patients the necessary discretion. Position, fold open, fold together after use and roll away – care of the easy-clean surfaces made of aluminium and scratch-resistant polycarbonate is just as easy as the handling. Visually the design award-winning folding screens contribute to the general feeling of well-being – in the doctor's surgery or in a clinic.

Available in 10 colours and 4 design options

Technical data

wall mounted

Non-see-through 360° hinges.
The RTC unit (ropimex®-Turn&Connect) enables 360° leaf rotation.

Accessories available:
Clamp set for service rail
Spacer for wall-mounting

mobile

Well-designed and stable

Note: Mounted on a trolley, the folding screen is only mobile. It is therefore not possible to convert it to a wall-mounted screen or to fix it to an equipment rail or column.

column-mounted

Possibility to fix until 4 folding walls
