# Caretray™ Trolley Disassembly & Cleaning

The design of the trolley allows for quick & easy tool-less disassembly providing access for all areas when conducting thorough or deep cleaning programmes. The simple guide below illustrates the disassembly & re-assembly process...

## 1 Remove Trays

Remove the trays from the unit

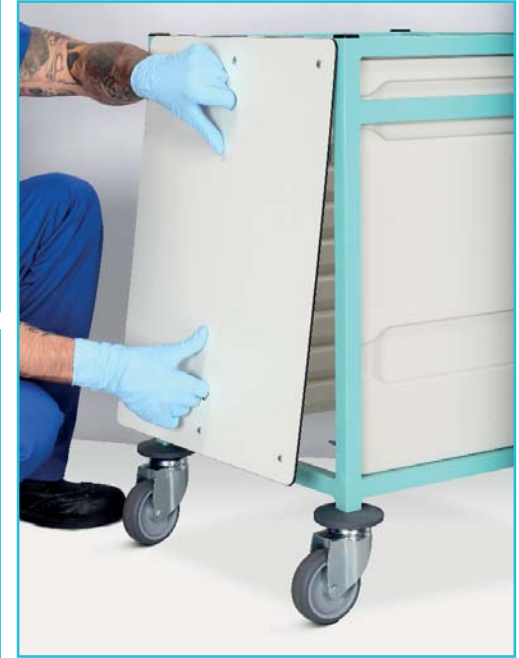

## 2 Remove Top

The top is held in place with two thumb screws. These are located on the underside of the top. Once these are removed the top can be removed with a firm tug

## 3 Remove Back Panel (if fitted)

Once the top has been removed the back panel can be lifted clear of the cross members on the rear of the frame

## 4 Remove Side Panels

The side panels can now be removed by lifting off of the positioning inserts. Double height trolleys require thumb screws at the top of the lower panel to be removed.

## 5 Clean

The frame, side panels & top can now be cleaned

## 6 Reassemble

The trolley can now be re-assembled by repeating the steps in reverse
